

2019 **ANNUAL
MEETING**
& EXHIBIT

October 27-30
Toronto, Canada

Session 128: Innovation Workshop

[SOA Antitrust Compliance Guidelines](#)

[SOA Presentation Disclaimer](#)

Society of Actuaries: Innovation Workshop

Presented by: The Rotman School of Management

Sonakshi Bhattacharya; Vanessa Boyce; Jessica Shannon; Rachel Taylor

Agenda

- 01** Intro to Design Thinking
- 02** Interview & Journey Map
- 03** Need-Find & Theme
- 04** Brainstorm Solutions
- 05** Wrap Up

01

Intro to Design Thinking

What is design thinking, anyway?

The process

UNDERSTAND

EMPATHIZE

DISCOVER

PROTOTYPE

Application to business

User & Result

INTERNAL / EXTERNAL

PRODUCT / SERVICE / SYSTEM

Divergent Thinking

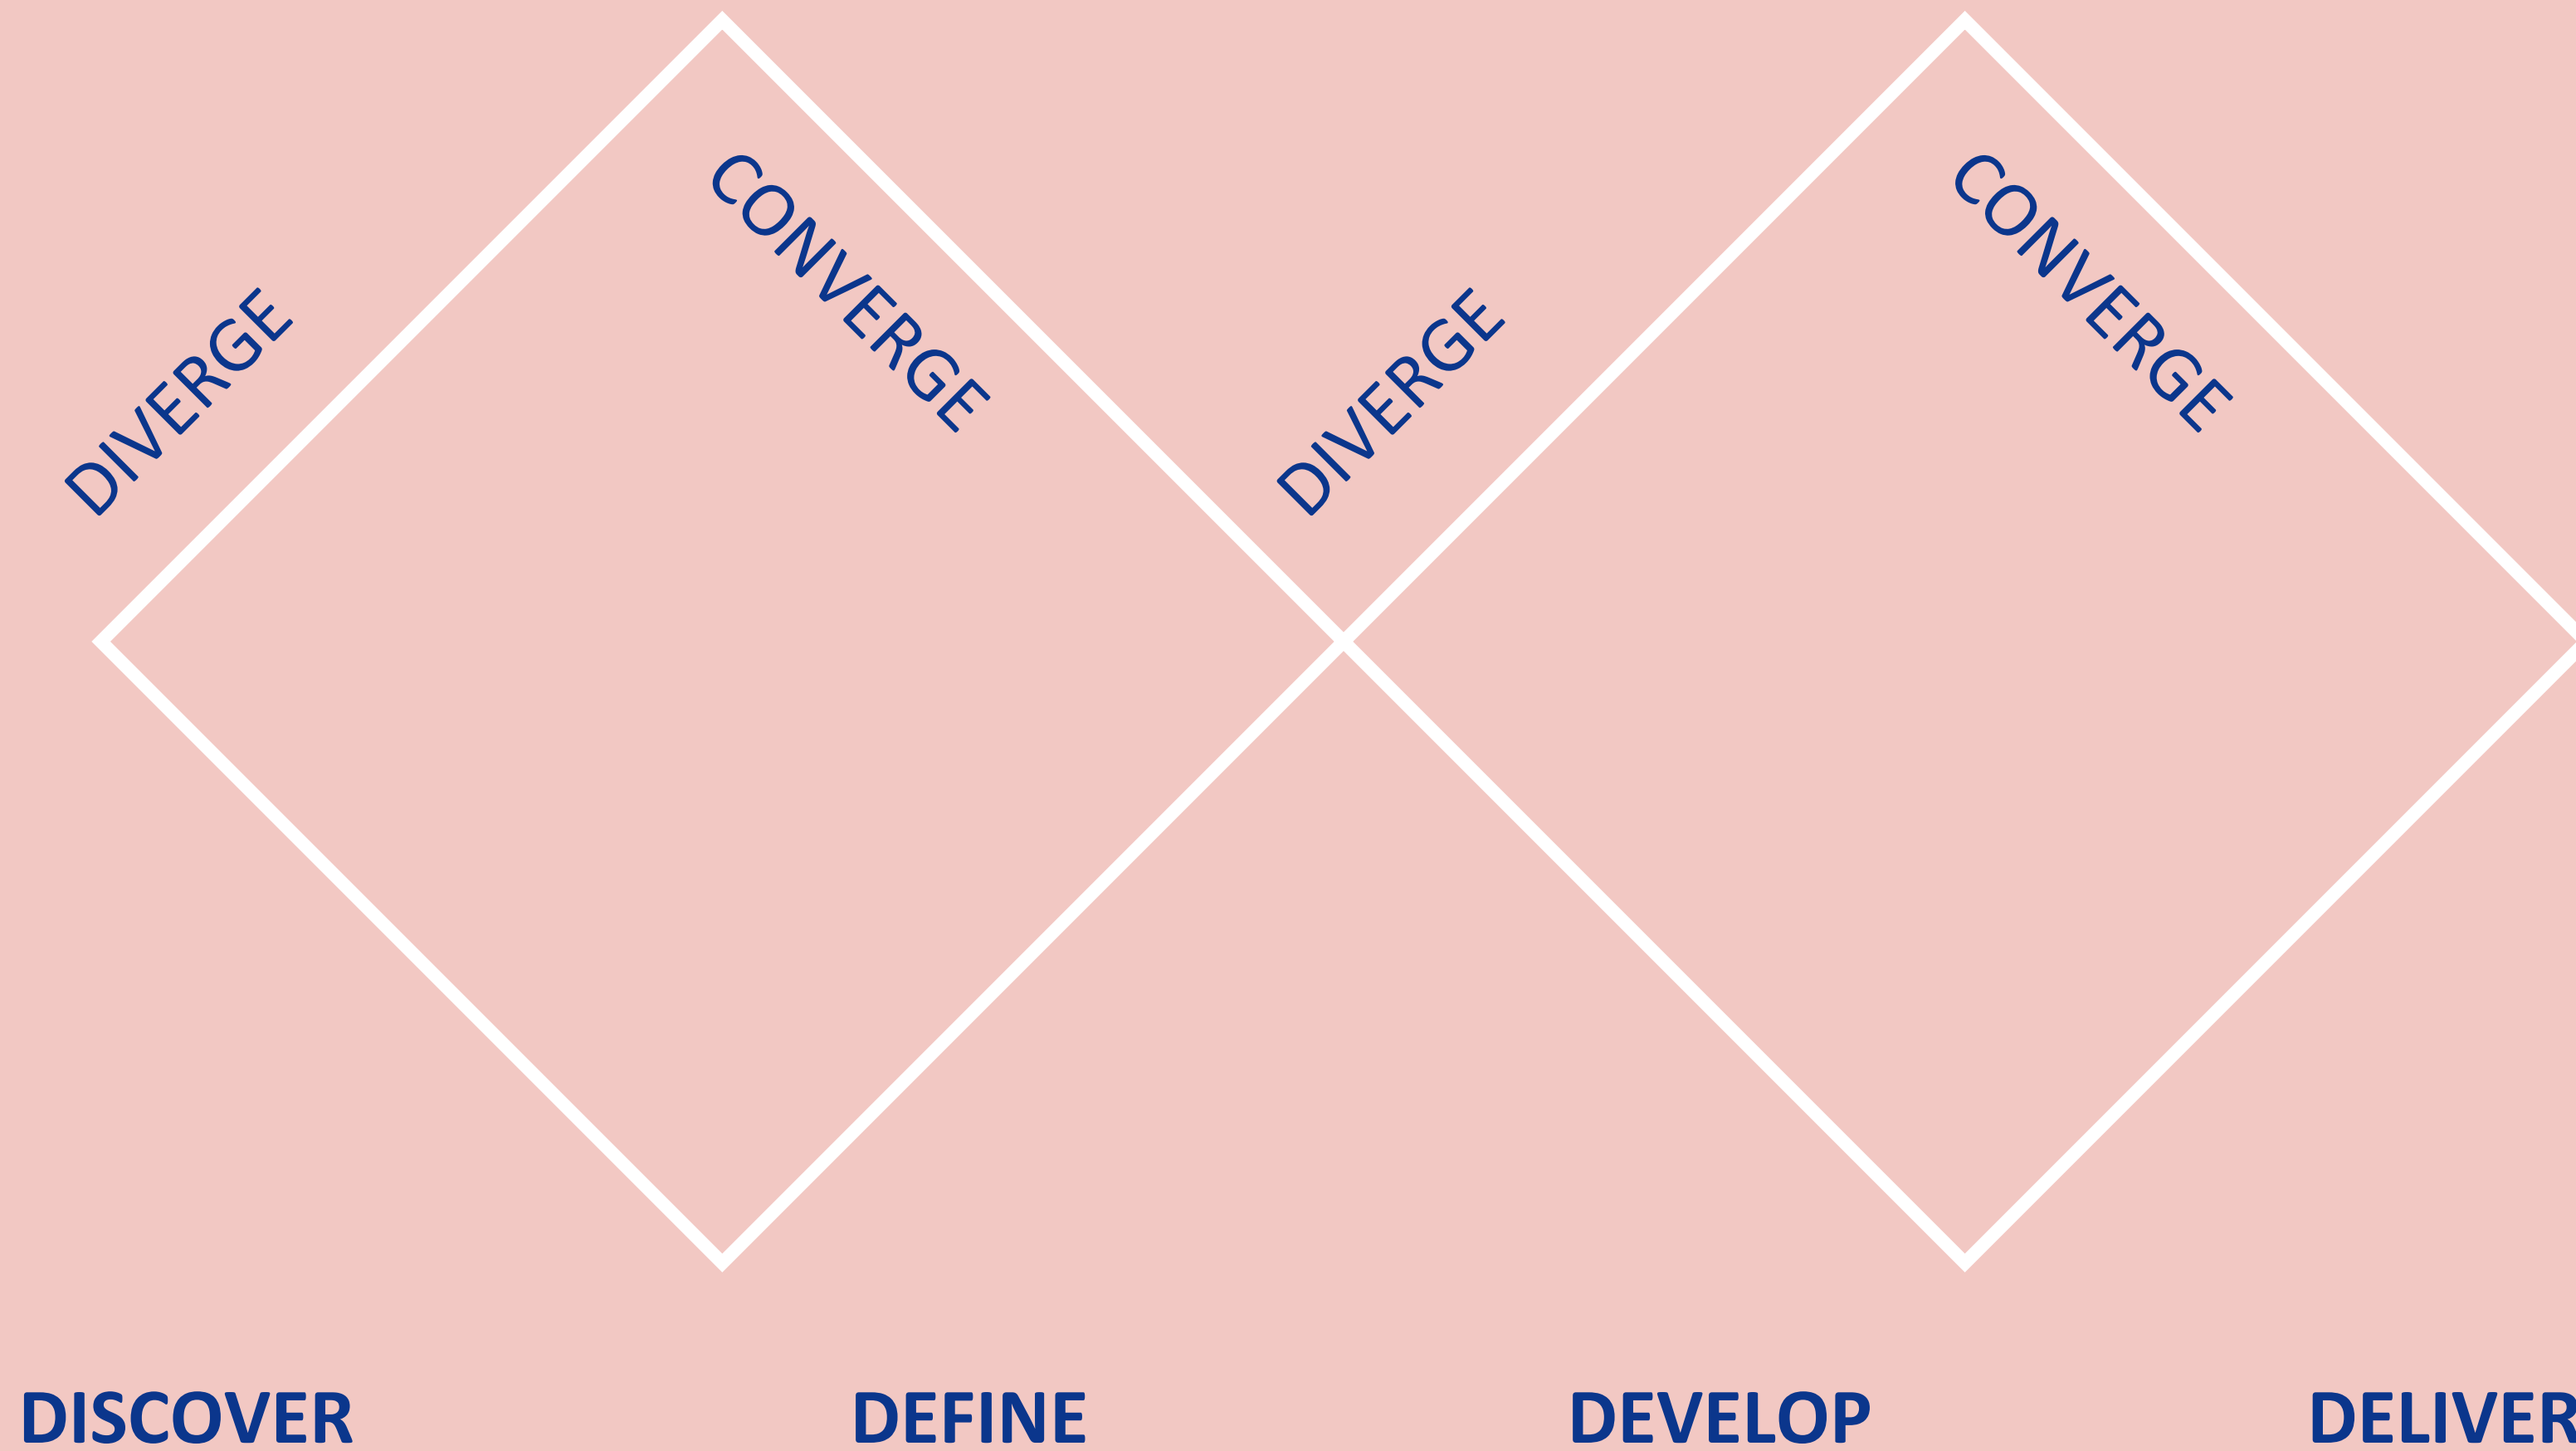

- Open
- Generative
- Expansive
- Iterative
- Visual
- Collaborative

Convergent Thinking

- Thoroughness
- Clarity
- Precision
- Evidence
- Fairness

Double diamond

02

Interview & Journey Map

How to conduct an open-ended interview

DON'T

ASK CLOSED QUESTIONS

GET CAUGHT IN
DETAILS

INPUT YOUR
EXPERIENCE

CLOSE YOUR BODY
LANGUAGE

DO

ASK FOR STORIES

PUSH FOR
EMOTIONS

FIND DIFFERENT WAYS
TO COMMUNICATE

“TELL ME MORE”
“WHY”

Map the Journey

Visualises an experience and the changes in emotion over time so as to identify the main pain points

1- Ask Questions

Ask open ended questions to understand the different elements of the experience

Follow up to understand:

- What they were doing?
- What they were thinking?
- How they were feeling?

2- Follow the timeline

Rearrange your conversation to create a timeline

Can be completed with the interviewee in order to find missed moments

3- Draw point on map

Match each moment in the journey to the emotion level

Note down the key quotes that go with each of the main points - back the emotional levels up with data

4- Connect Points

Connecting the dots helps to see the process visually

Look for key pain points based on low emotion moments or dramatic changes in state

“I got excited as I packed”

“I used Uber so it was easy to grab a taxi”

“We arrived at the airport in good time”

“The kiosks were broken so I had to go to the desk”

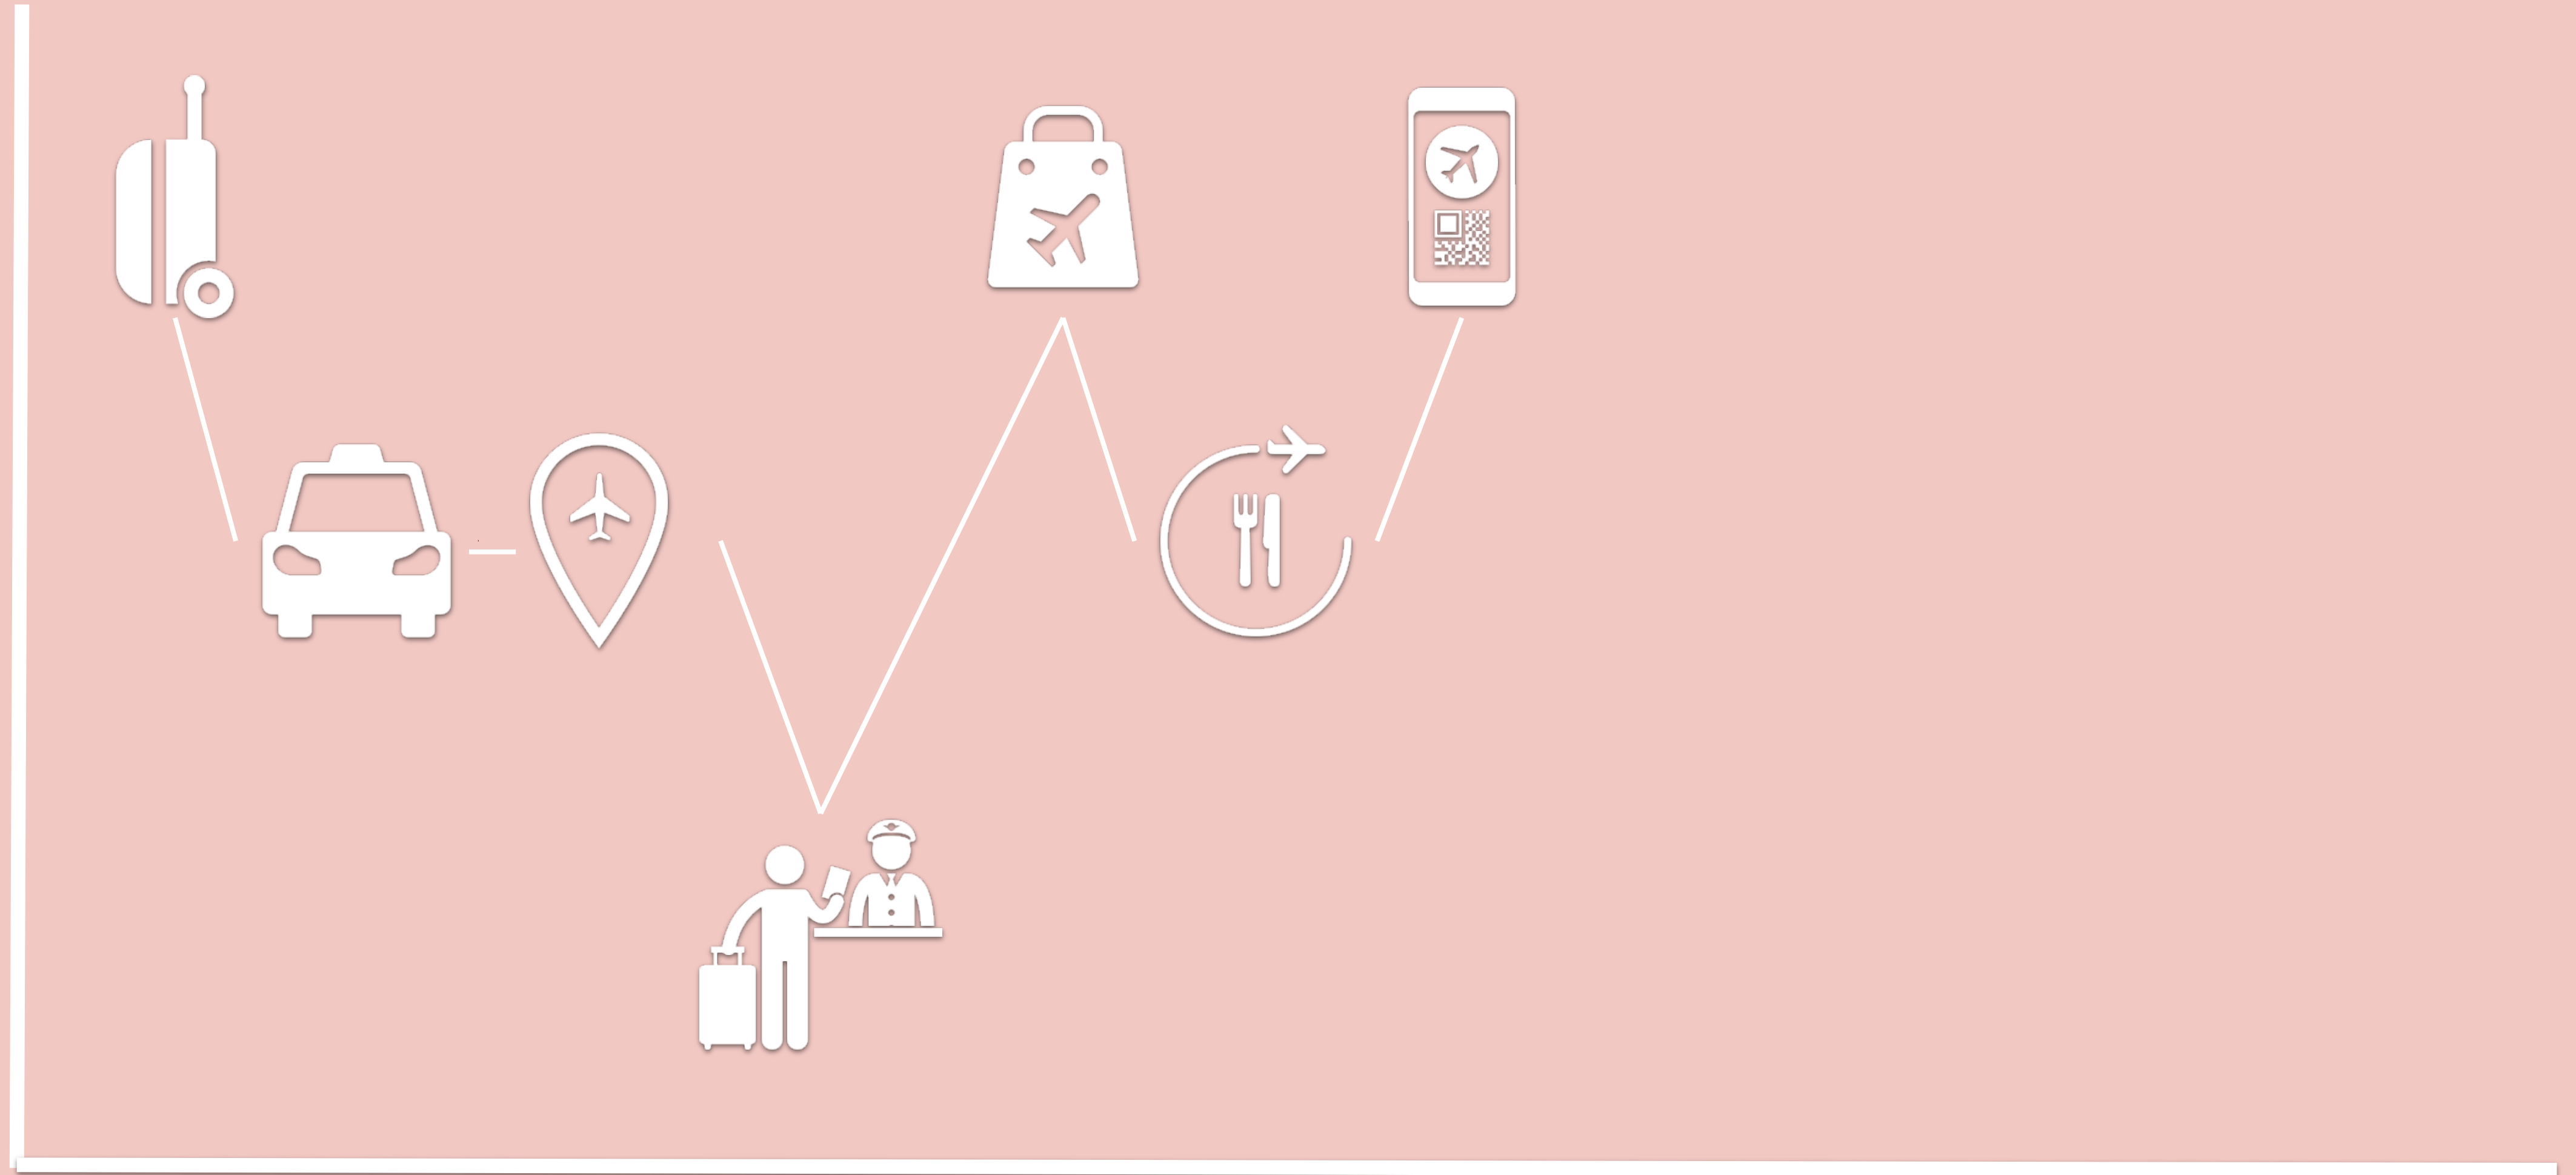

“I’d been waiting to shop in duty free for a while”

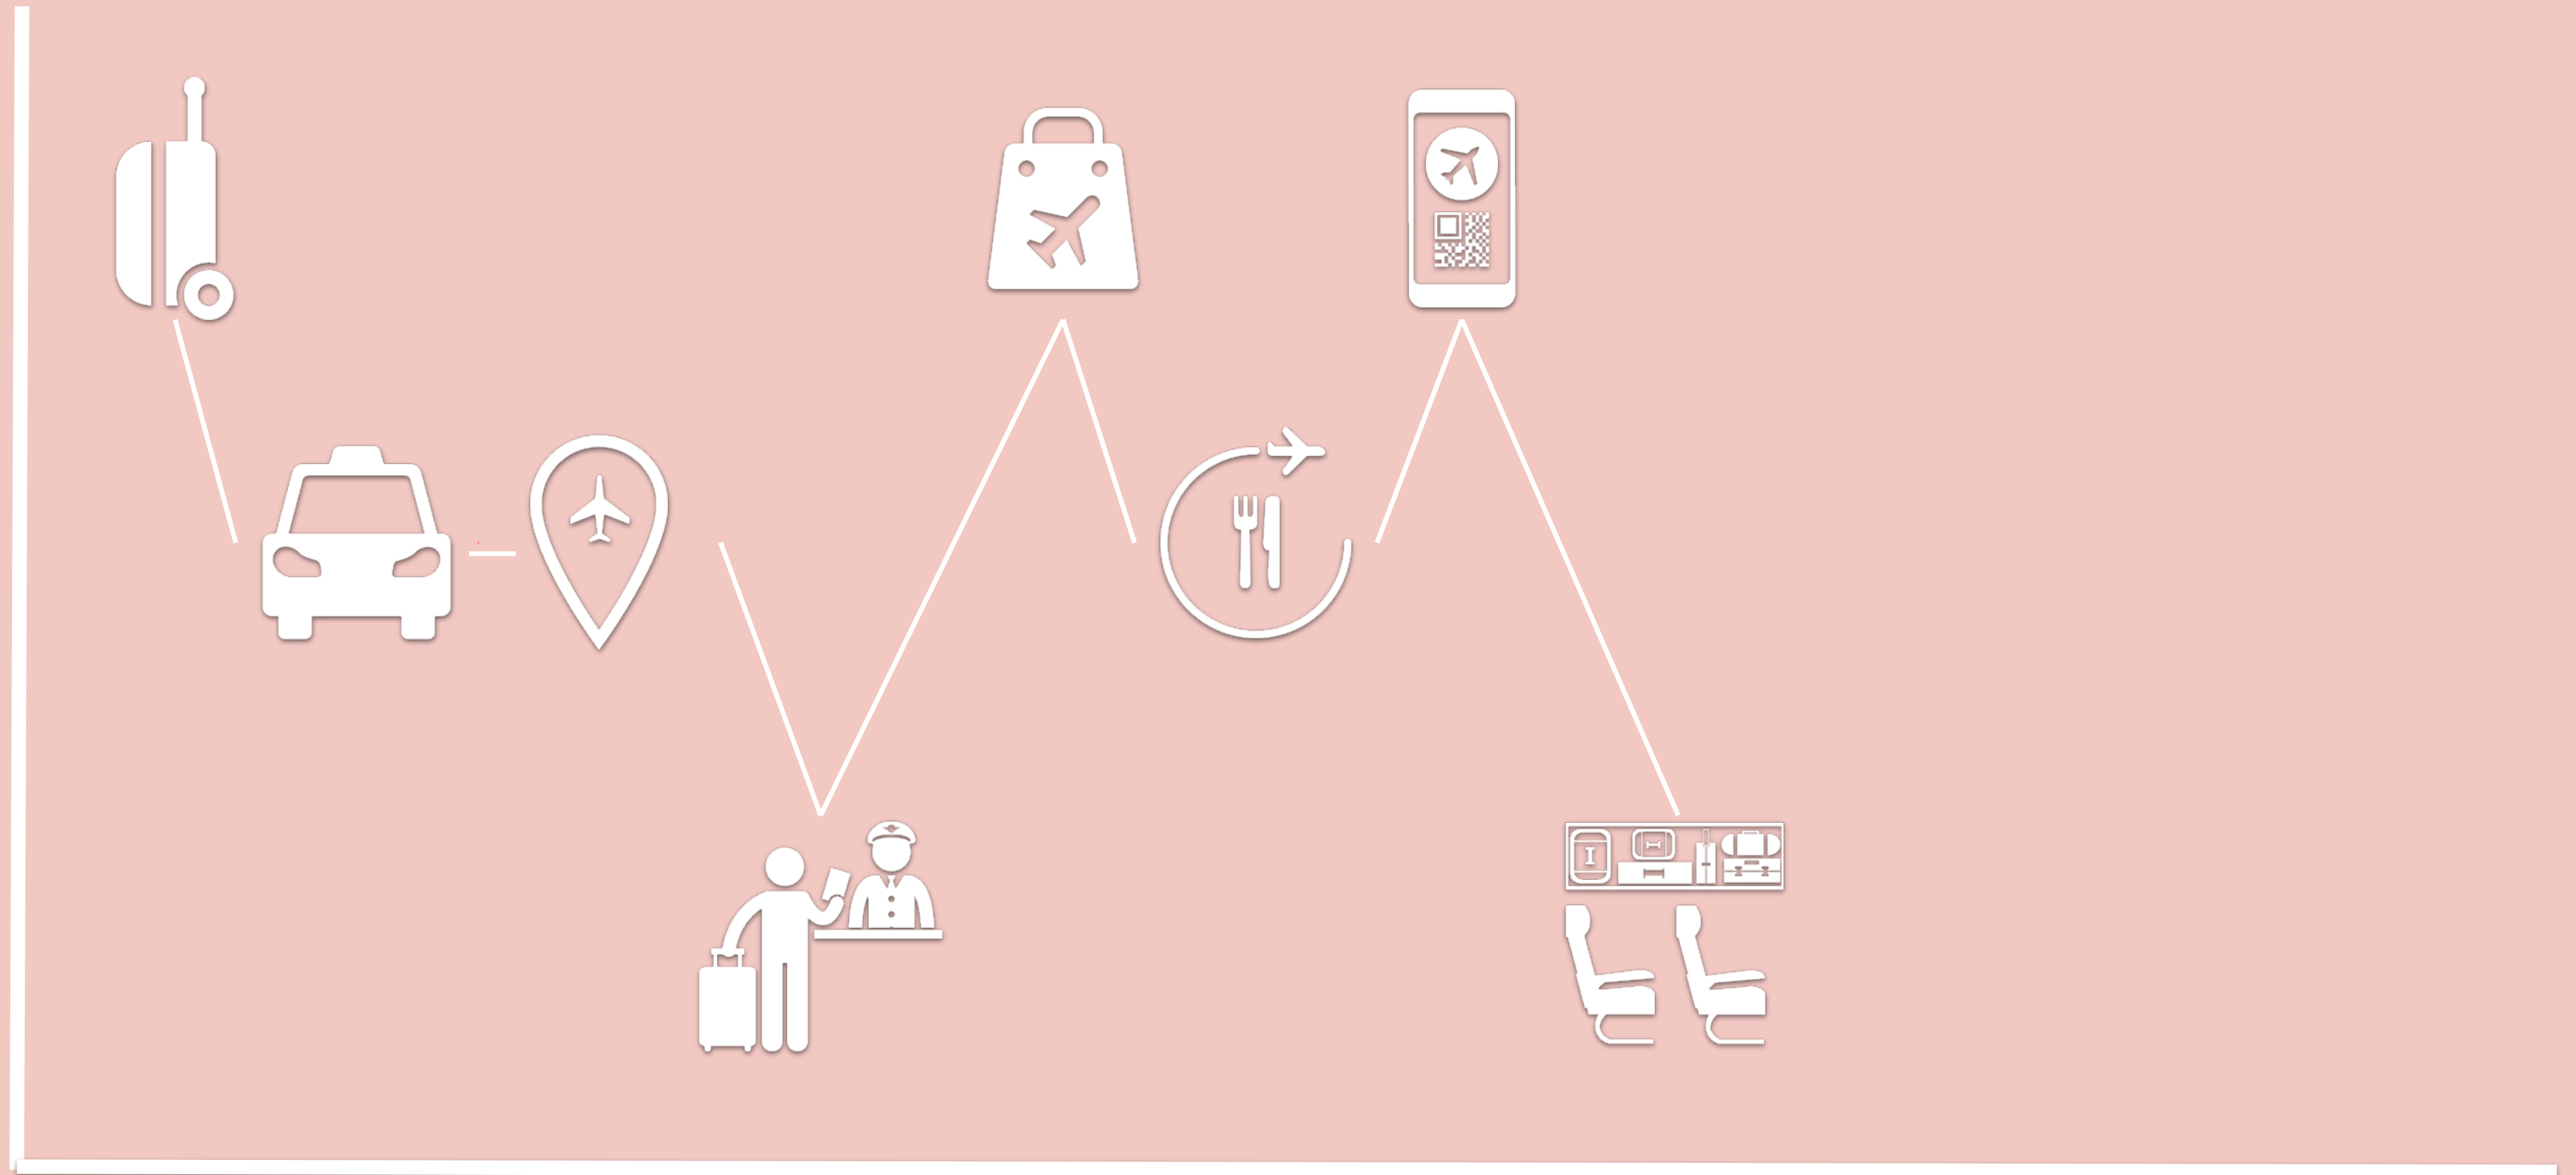

“The food in the airport was fine, nothing special”

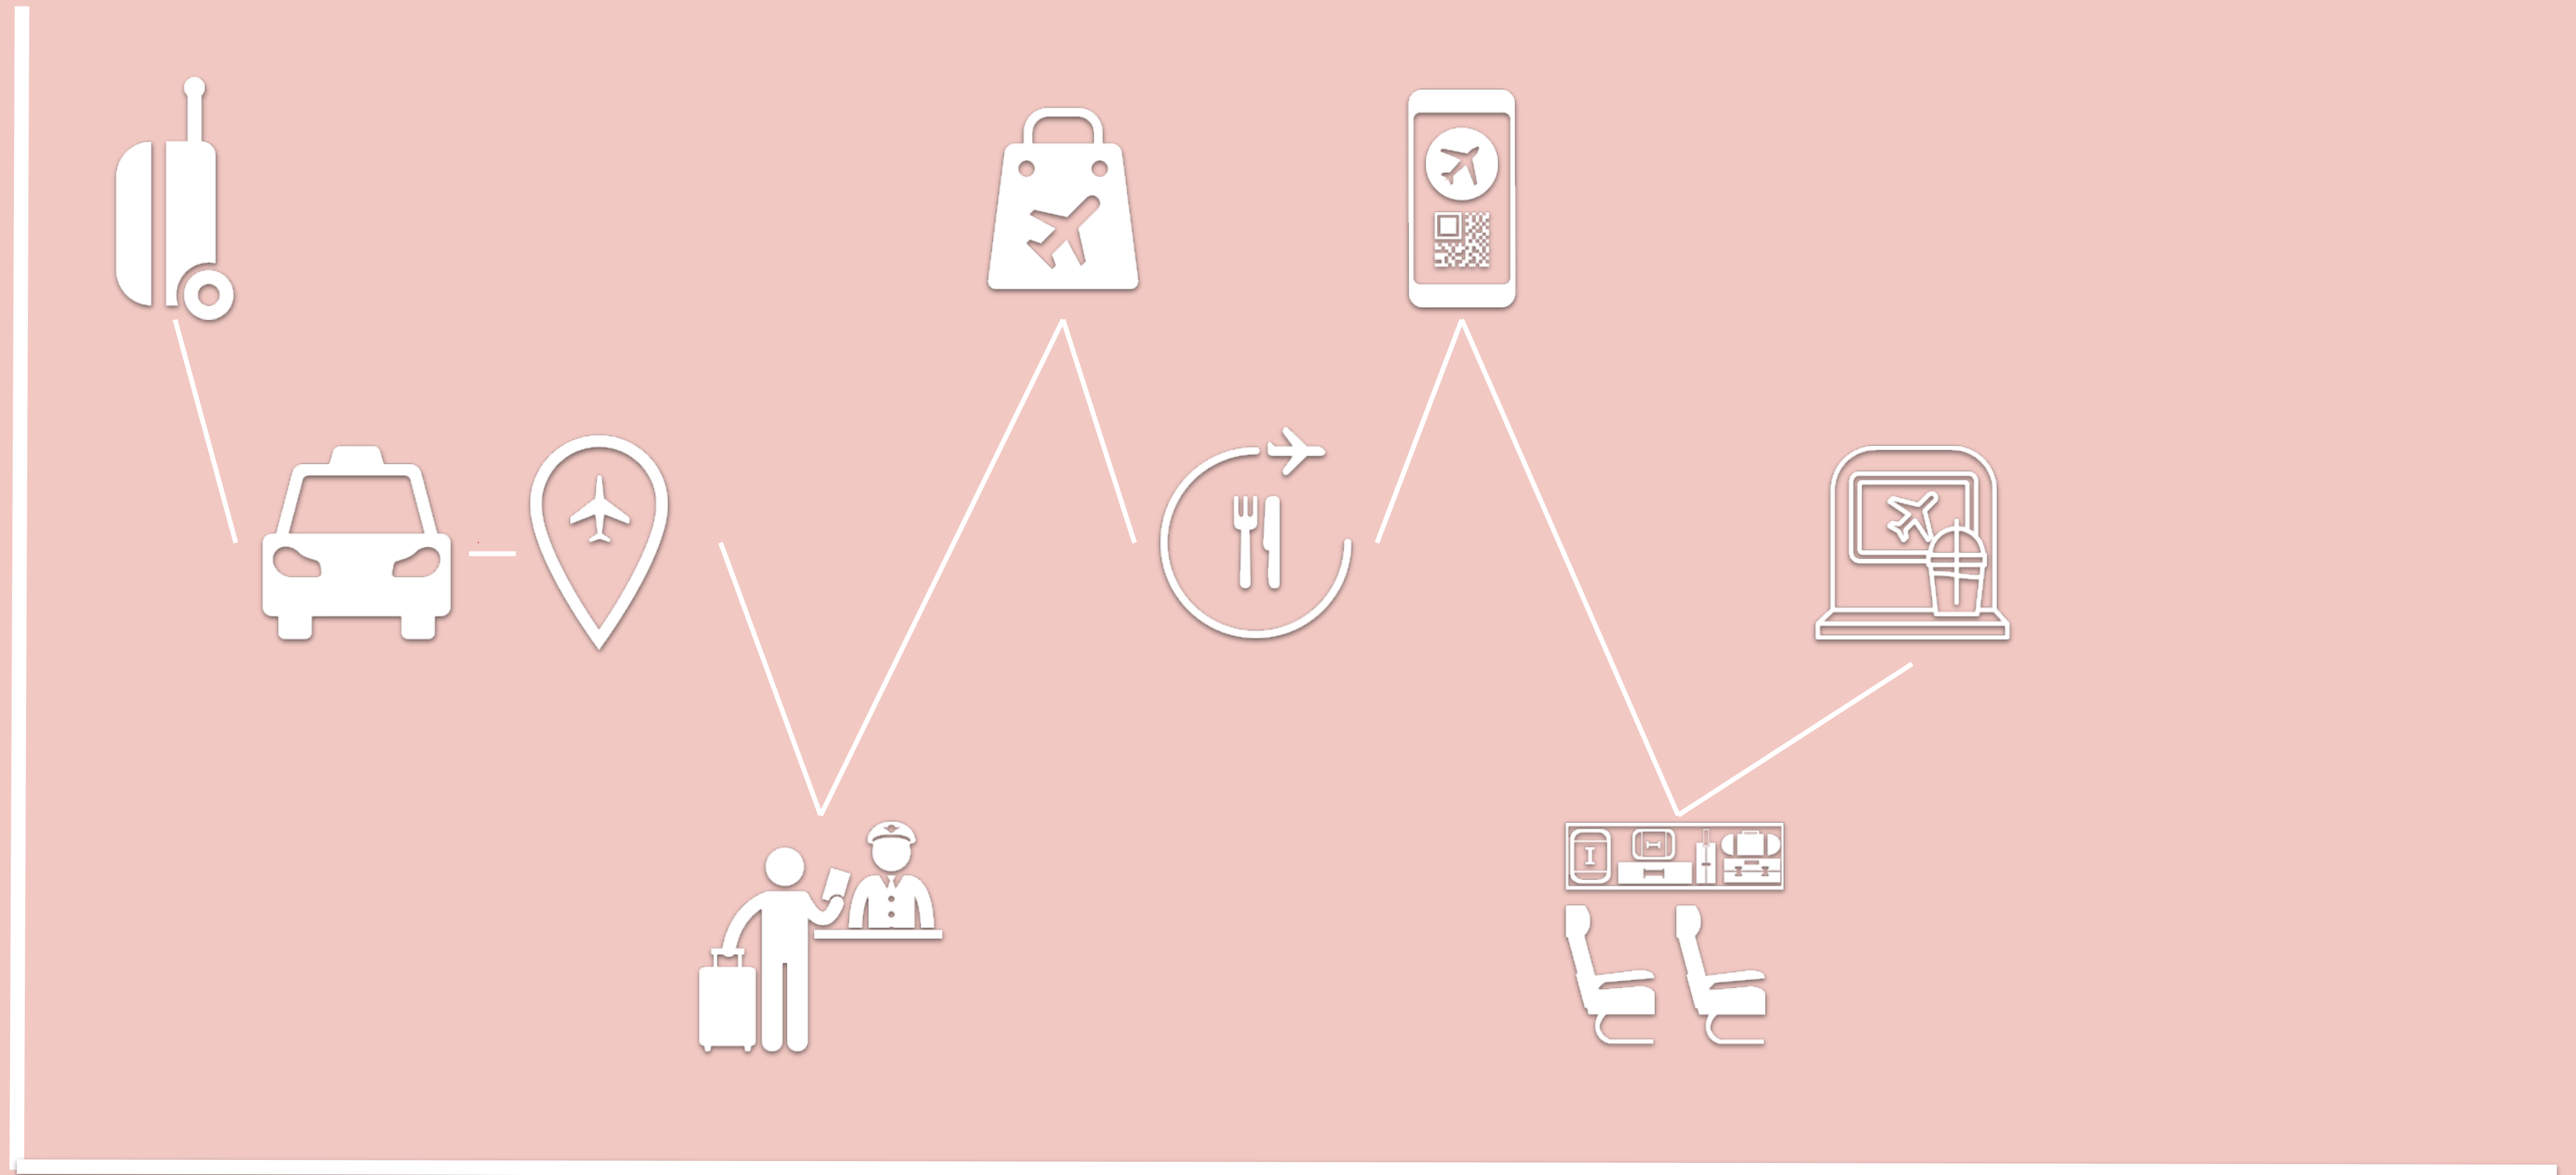

“My electronic boarding pass was really easy”

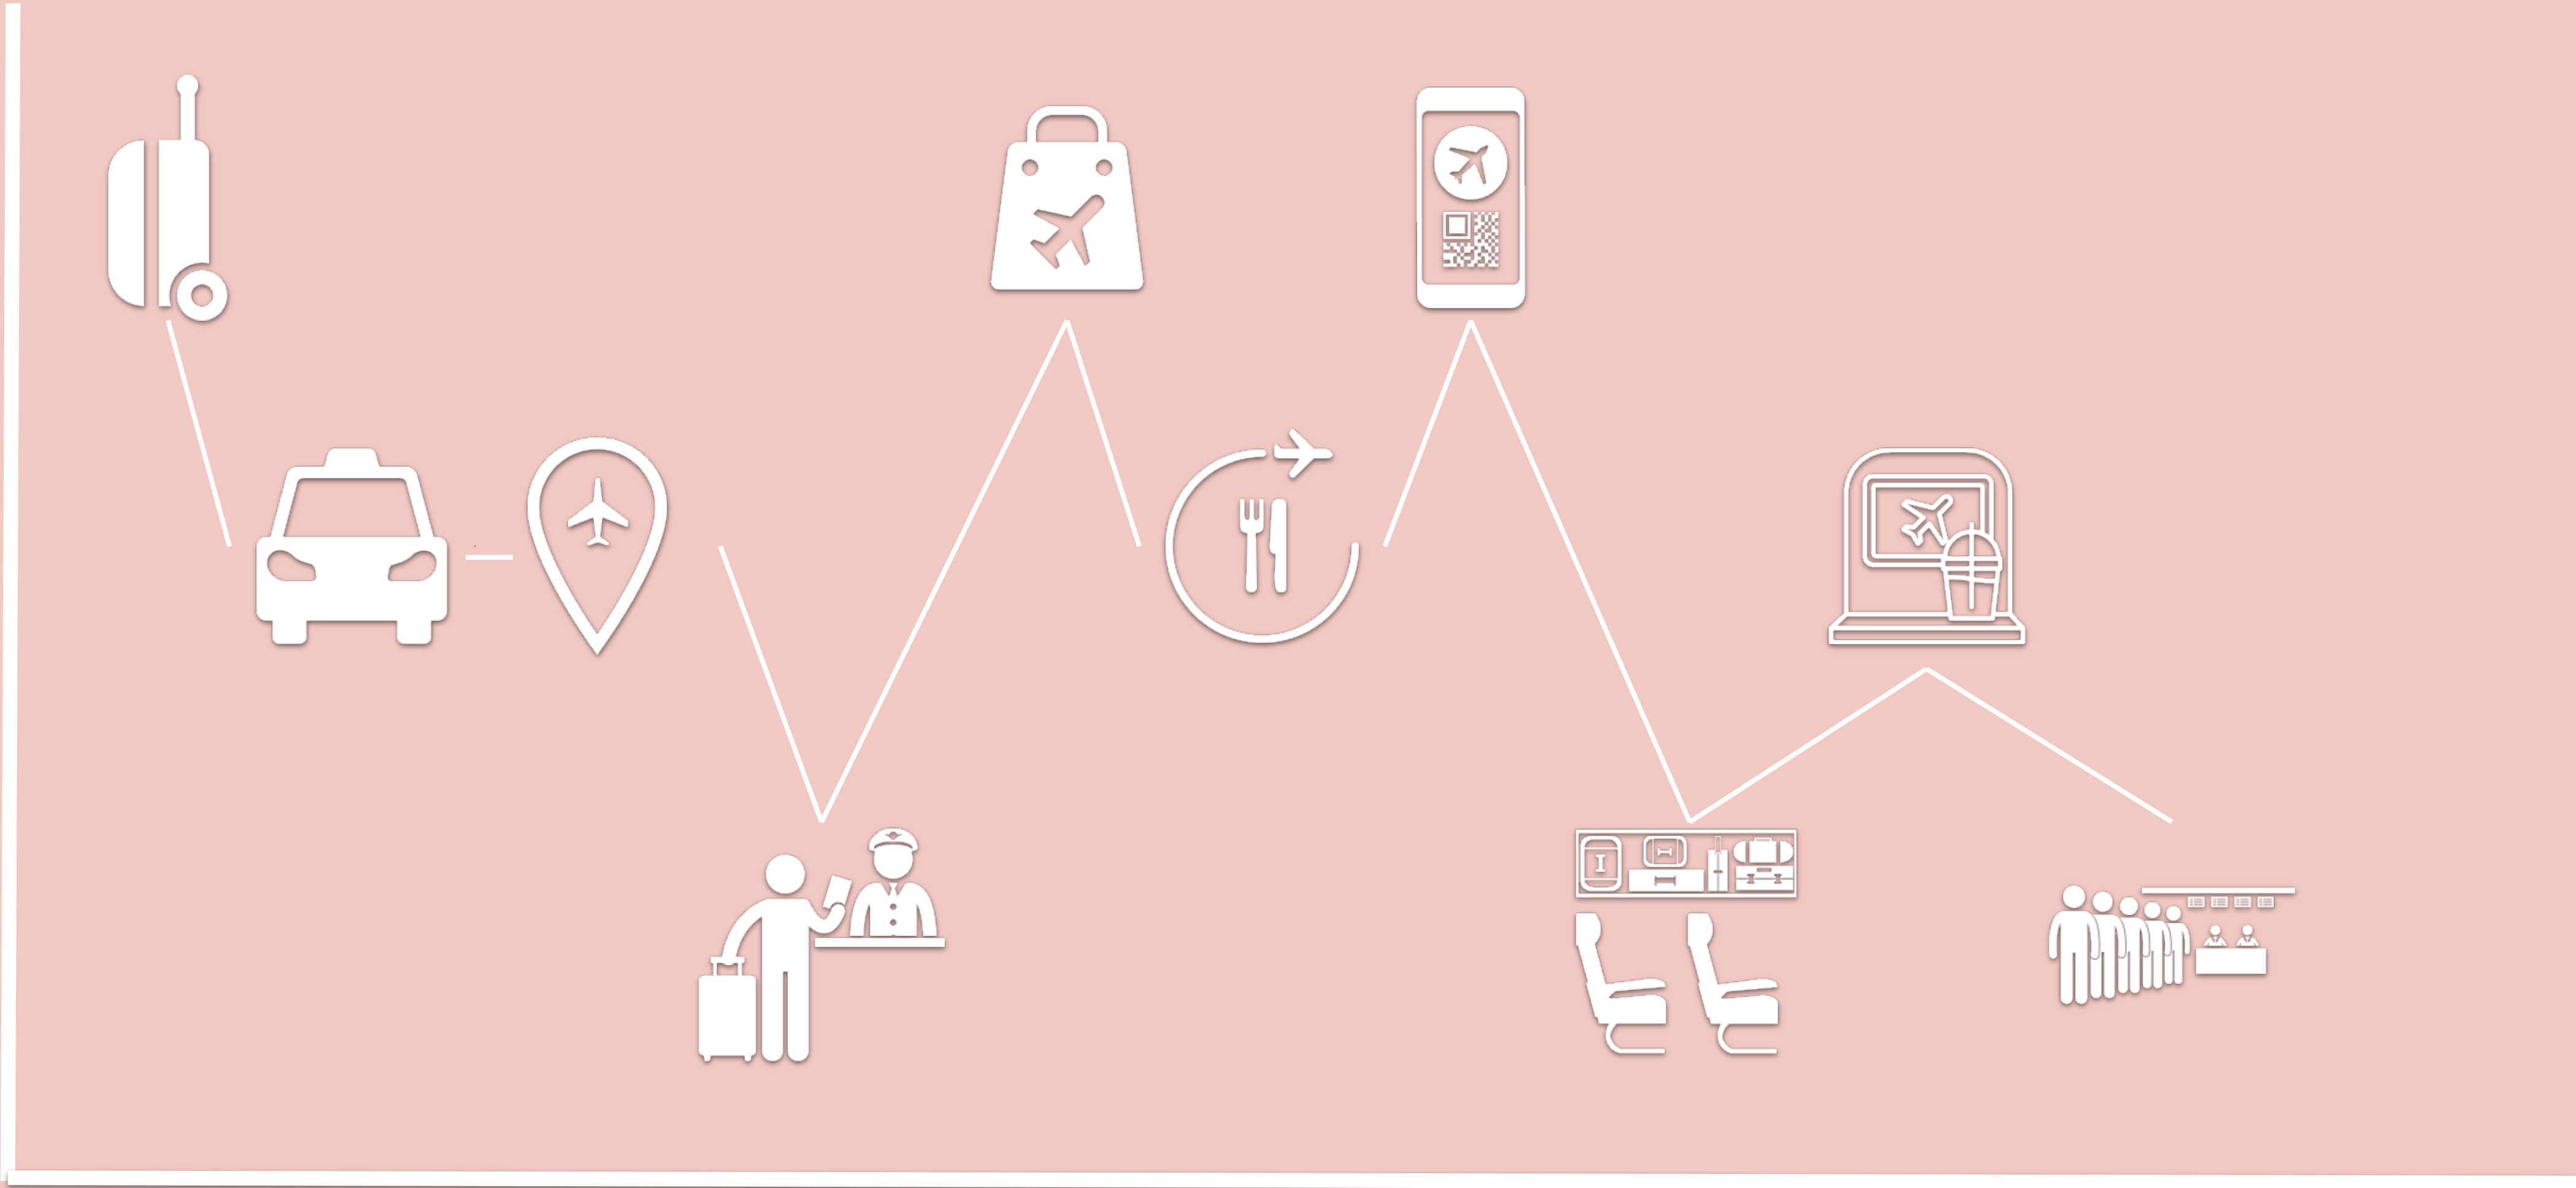

“But then they took my bag away as there was no space”

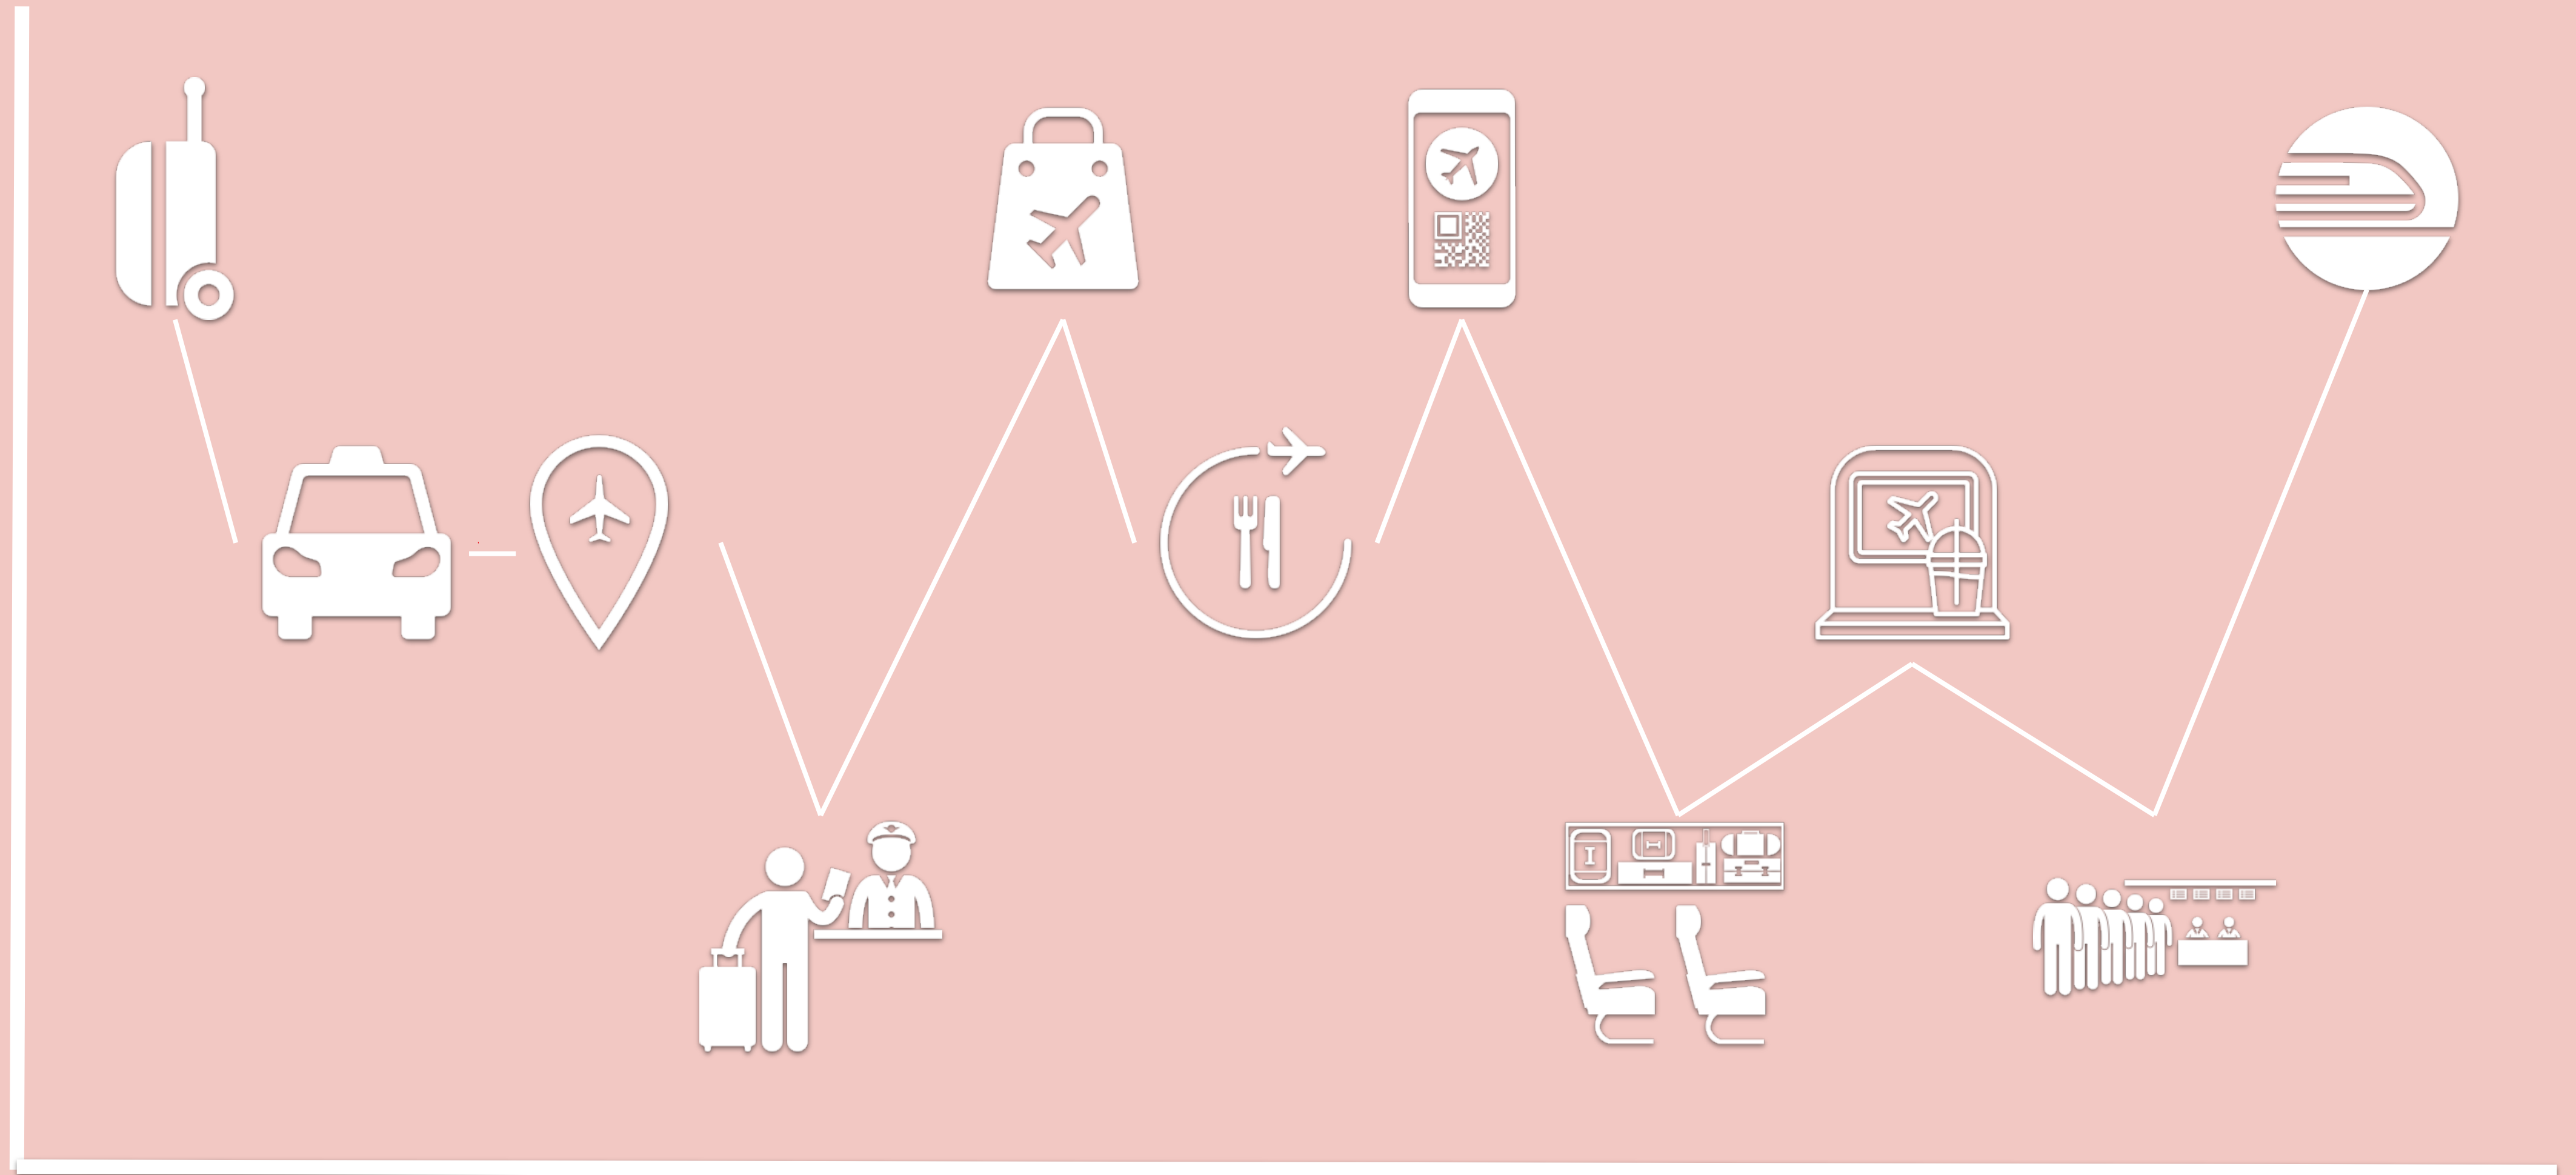

“I watched some movies to pass the time”

“There was a long line to get through customs”

“The train took me straight to the hotel”

03

Need-Find & Theme

What are the unmet needs?

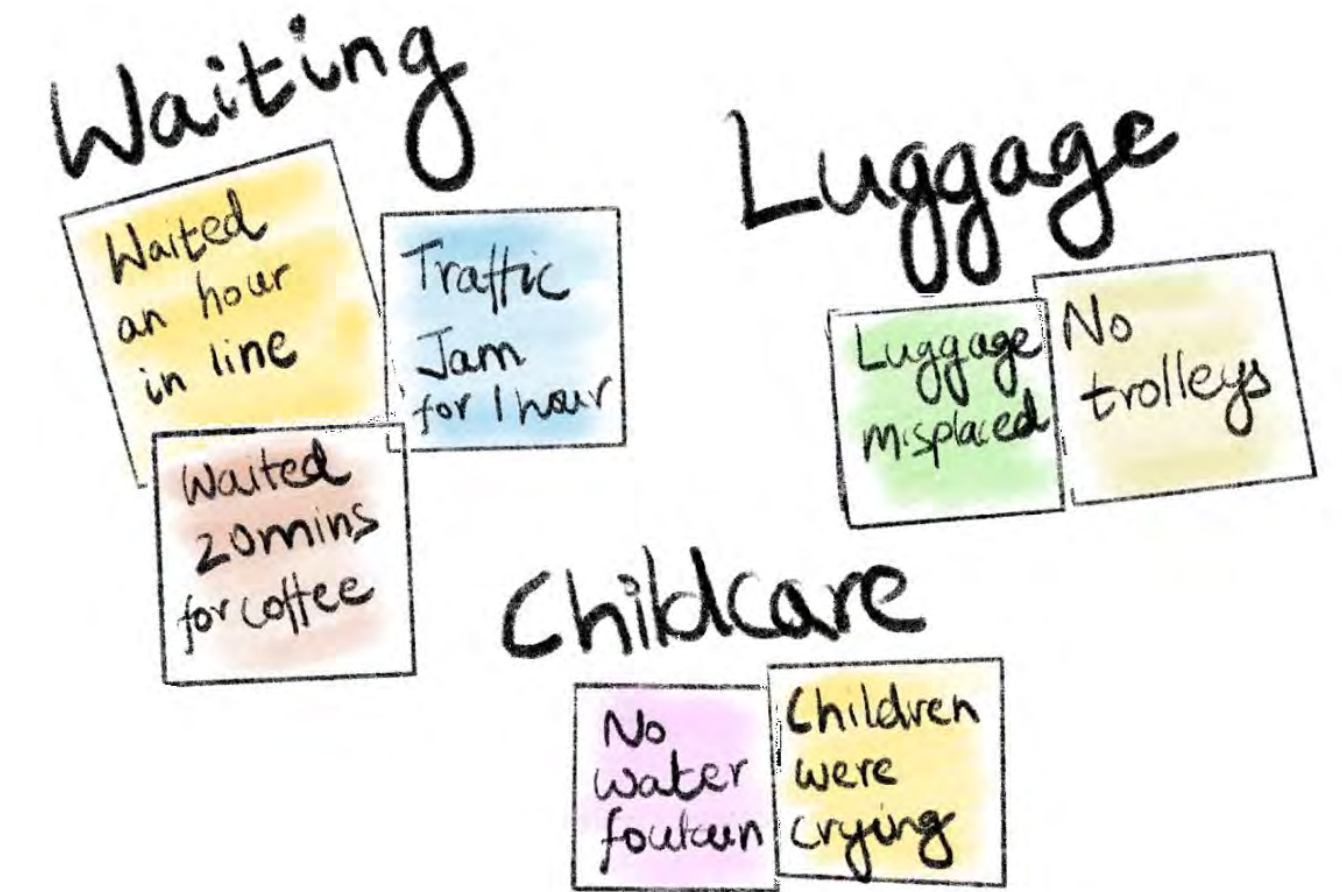

What are the pain points?

 WHAT DO YOU SEE?

 DO YOU HEAR?

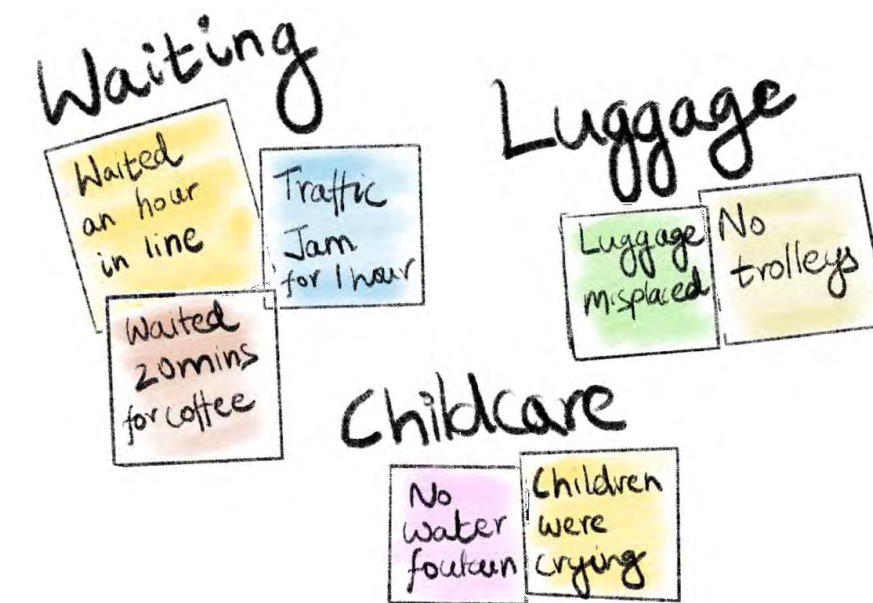

LIST OBSERVATIONS

IDENTIFY THEMES

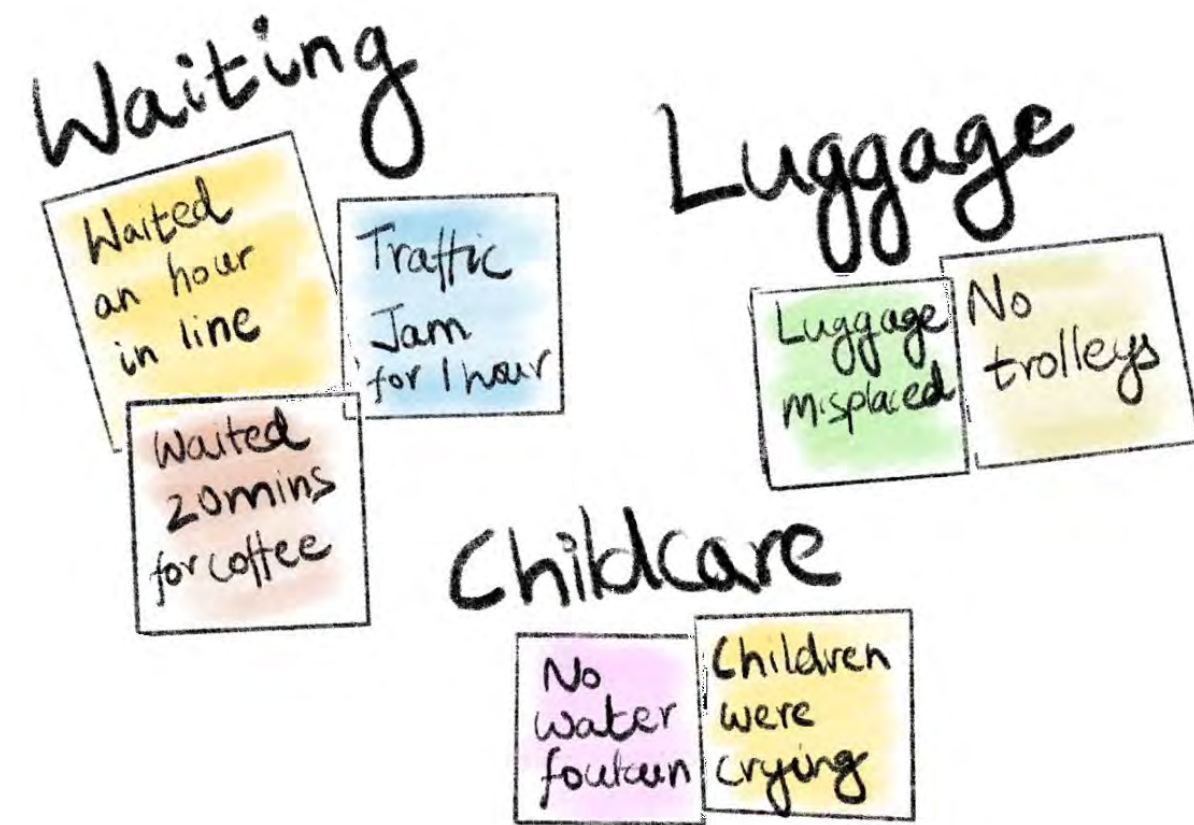

Think of possible inferences?

WHAT DID YOU SENSE? WHAT MIGHT IT MEAN?

Framing the needs

Identify 3 core needs

TRAVELLERS NEED

1. Proper childcare
2. Easily portable luggage
3. Entertainment

Framing the “how might we?”

HOW MIGHT WE _____ (verb)

_____ (who are we designing for)

INSIGHT _____ (one core need to solve for)

“How might we”

How might we help (verb)

busy executives who experience flight delays (who are we designing for)

insight by improving the waiting experience at airports (one core need)

04

Brainstorm Solutions

As a table, choose top 2-3 needs

- What is the most urgent need?
- What need might make the biggest impact?
- What need is more universally felt by demographic you are designing for?

Discuss solutions – let your imagination guide you

- No idea is too small or too big in this stage
- Draw what it looks like
- Write what it could be
- What are the features and benefits?

Pick the solutions that have the most impact on the 3 needs

- Choose your top 3 ideas as a group
- Do you notice any similarities between peoples' ideas?

05

Wrap up

05

Skills learned today

**01**

To conduct an open-ended interview

**02**

To use empathy to identify unmet needs

**03**

To theme and frame qualitative data

**04**

To brainstorm many ways to attack one problem

Designing for Actuaries

Product Development

Who is the end user?

What are their needs?

What is their mindset?

I.E. Millennials do not have large mortgages so what do they need?

Risk Management

Who is this report for?

What do they need to know in order to act?

I.E. How do you give the C-Suite the most important information to act upon?

Financial

Who are your internal customers?

What do they need to do their job better?

I.E. Who is going to read this quarterly report, and what exactly do they need from it?

“

As a leader, you should always start with where people are before you try to take them where you want them to go.

”
