**REPORT OF THE COMMITTEE ON GROUP
MORTALITY AND MORBIDITY**

SECTION I. GROUP LIFE INSURANCE

THE Committee's study of the claim experience under Group Life insurance policies for the calendar year 1951 indicates a continuation of the pattern and trends of the experience for the five-year period 1946-1950, which was included in the Committee's 1951 report. It was therefore decided not to publish the details of the 1951 calendar year experience separately, but it is expected that this experience will be included with that of subsequent years in a future report of the Committee.
