Small Talk

March 2018

Issue 49

Chairperson's Corner

By Mark Rowley

We are pleased to offer this special newsletter that focuses on the urgent issue of tax reform. With the passage of tax reform in December 2017, there has been challenging work for actuaries and accountants this year-end. We hope this short newsletter will be beneficial as you work through tax reform in 2018. We will look to disseminate more information about tax reform as it becomes available.

Look for our April webinar on tax reform.

We have at least eight channels to disseminate information:

- Webinars
- Town halls
- Meeting sessions, especially the Valuation Actuary Symposium and Society of Actuaries (SOA) Annual Meeting & Exhibit
- Podcasts
- This newsletter (twice per year; see *https://www.soa.org/sections/small-insurance/small-insurance-newsletter/*)
- Research projects
- Blast emails
- Section webpage (*https://www.soa.org/sections/small-insurance/small-insurance-landing/*, check this often for more information!)

We will use all these tools in 2018 to get helpful information out to small company actuaries.

It is a joy to serve this group! ■

Mark Rowley, FSA, MAAA, is vice president, managing actuary with EMC National Life in Des Moines, Iowa. He can be reached at *mrowley@emcnl.com.*
