

## **Committee on Life Insurance Company Expenses 2005 Individual Life and Annuity Expense Study**

### **Purpose and Objectives**

While expenses are critical to pricing, policy illustration, financial reporting and performance analysis, actuaries working in these areas have had little in the way of inter-company information in a format that is useful for measuring their company's performance against industry averages or benchmarks. The Committee on Life Insurance Company Expenses (CLICE) was formed in part to address the need to fill this void.

CLICE is finalizing its work on the 2004 inter-company expenses study for individual life and annuity products which is expected to be posted on the SOA website in about a month.

The objective of the 2005 study is to continue this effort while expanding the level of contributions, to serve as a useful unit expense benchmark to pricing actuaries and their managements from which to assess their own unit expense performance. In addition, CLICE expects the results to be useful in enhancing the generation of the Generally Recognized Expense Table (GRET) in the U.S. used by some companies to demonstrate compliance with the NAIC model sales illustration regulation. This study is intended to be completed by U.S companies and U.S. operations of Canadian companies.

Concurrently, CLICE has been working with the American Academy of Actuaries' Life Reserving Working Group on the implications of expense data gathering for principle based reserving. Although the efforts of the working group have not yet necessitated any revisions to the current data submission form, CLICE will continue to monitor this effort and alter the form, if needed. In this regard, because the data submitted for this study may eventually serve another purpose, CLICE is all the more appreciative of contributions to the study.

### **Confidentiality**

**All responses to this survey will be kept completely confidential. Society of Actuaries staff will process the responses—no individual company data will be published. Where comparative results are presented, no companies will be identified.**

### **General Instructions**

The study covers all Individual Life and Annuity business including Variable Life and Variable Annuities. Accident and Health and all group business are to be excluded.

The Committee believes that broad participation is critical to the success of the study. Therefore, it is important that you participate in the study even if you cannot provide all of the requested detail; in particular, if all of your expenses cannot be broken down by distribution system and line of business. However, when transmitting your contribution, please indicate to the Committee any information not provided in the detail requested.

This study asks for information by distribution channel and line of business relating to acquisition and policy/contract maintenance activities. Except where otherwise instructed, expenses should be those that are directly incurred by the function described in the line item. Overhead should be recorded in the line items provided for that purpose. **Use your best judgment in determining the appropriate method to allocate expenses among the various distribution channels and lines of business.**

**When data for each distribution channel is provided, please be sure to include both applicable units and expenses so they can be properly matched. Where you are unable to provide the breakdowns by distribution channel, use the Unallocated column. If the allocation by line of business is not available, use the Other Life or Other Annuity line of business, as appropriate.**

For Immediate Annuities, units and expenses for structured settlements should not be included. If for some reason, it is not possible to exclude the units and expenses for structured settlements, please note in the comments section how you treated them.

Please only input numerical values in the actual expense and unit tables; for explanatory notes, please use the comments sections.

If you find it necessary to deviate from the instructions or use the Unallocated column, please provide an explanation in the area provided for that purpose or call Steve Siegel at the Society of Actuaries (847-706-3578) or [ssiegel@soa.org](mailto:ssiegel@soa.org) for instructions.

**Completed worksheets should be e-mailed to Jeanne Nallon at [inallon@soa.org](mailto:inallon@soa.org).**

### **Format**

An Excel workbook is being used to collect the data. The tabs at the bottom of the workbook indicate units and expense worksheets for each line of business. You need only fill out the sheets for the lines of business that are applicable to your company. You will not be able to make entries in any cells other than those where data is expected. All other cells are protected. Totals are automatically calculated, where applicable. The width of the columns in the workbook has been left adjustable to make it easier to ensure that the correct figures are inputted (this option is only available in Excel Versions 2002 and later). If you have any problems entering data, please contact Steve Siegel at the above e-address.

### **Company Information**

Enter the name of your company and the requested information for the primary contact for this study. Place an X in the appropriate box for your Corporate Organization Type. Enter an X in the Yes box for Primarily Burial Life Insurance Company, if your company primarily sells this type of business. Enter the amount of Gross Investment Income and Investment Expenses from Lines 10 and 11, respectively, of the Exhibit of Net Investment Income of the NAIC General Account and Separate Account Annual Statement. Please note any characteristics unique to your company that might significantly impact comparisons with other companies and/or if your company underwent any major changes that would impact your 2005 results in the space provided.
