Executive Summary

The Society of Actuaries' Committee on Life Insurance Company Expenses (CLICE) has developed and conducted inter-company expense experience studies since 2001. This report documents the results of the Committee's eighth expense study—the 2008 SOA Individual Life and Annuity Expense Study.

The Committee distributed a call to life insurance companies in spring 2009 for contributions of 2008 calendar year expense data. Contributions of individual life and annuity expense data were received from 23 U.S. life insurance companies.

A Per Policy Index is used to facilitate the comparison of first year expenses (excluding commissions and premium taxes) among contributors. Similarly, a Per Policy *Inforce* Index is used to compare operating expenses (excluding commissions, termination expenses, premium taxes, and for annuities, annuity payout expenses). These two indices provide the reader with a high level basis for making comparisons and should be reviewed first. Additional measures are available within the report for those interested in more detailed unit costs. As recognition of their participation, special reports with individually tailored results were produced for contributing companies.

Comparison of 2007 and 2008 Per Policy Index Unit Costs For Companies Contributing to both 2007 and 2008 Studies

| Products | | Year | First Year* | | | Inforce# | | |
|-----------|-----------|------|-------------------|-----------------------|-------------------|-------------------|---------------------|-------------------|
| | | | 25% Percentile | Weighted Average** | 75% Percentile | 25% Percentile | Weighted Average | 75% Percentile |
| Life | Term | 2007 | \$462 | \$714 | \$1,125 | \$45 | \$56 | \$76 |
| | | 2008 | 531 | 768 | 992 | 46 | 58 | 84 |
| | Permanent | 2007 | 537 | 1,160 | 1,270 | 42 | 48 | 77 |
| | | 2008 | 703 | 1,248 | 1,455 | 60 | 59 | 87 |
| | Variable | 2007 | 585 | 1,248 | 1,279 | 120 | 139 | 231 |
| | | 2008 | 938 | 1,788 | 3,495 | 125 | 152 | 202 |
| Annuities | Fixed | 2007 | \$628 | \$921 | \$1,294 | \$75 | \$127 | \$132 |
| | Deferred | 2008 | 626 | 808 | 920 | 93 | 131 | 140 |
| | Fixed | 2007 | 292 | 598 | 1,715 | 64 | 101 | 129 |
| | Immediate | 2008 | 1,147 | 1,402 | 2,600 | 92 | 123 | 127 |
| | Variable | 2007 | 603 | 1,053 | 1,022 | 228 | 215 | 294 |
| | Deferred | 2008 | 793 | 856 | 949 | 202 | 195 | 249 |

*Excludes commissions and premium taxes
#Excludes commissions, premium taxes, termination expenses and annuity contract expenses during payout period
**See Data Issue 7 on page 7 for an explanation of why some weighted average figures are greater than the 75th percentile.

Due to differences in expense allocation practice among contributing companies, the mix of companies that contributed, and the limited number of contributors in certain product/channel categories, the results of this study, and particularly comparisons by year, product, distribution channel, and company size, should be viewed with caution.

Nevertheless, the figures shown in the above table and tables and graphs in this report provide companies with benchmarks and trends that may be used in evaluating their own expense levels and trends.

The committee has distributed a request for, and is receiving contributions to the 2009 study, which will further continue this annual effort. The committee expresses its appreciation to all of the contributing companies for their assistance and support of this study. The committee also expresses its appreciation and thanks to SOA Staff, Barbara Scott and Steve Siegel, who were responsible for much of the work of producing the study.

Companies interested in contributing to future expense studies and receiving from the Society of Actuaries the special analyses provided to contributors should contact Steve Siegel at the Society's office.

Section 1: Description of Data Received from Contributors

Appendix 1 contains a sample data submission form for both individual life and annuity products. Contributors were asked to provide both expenses and corresponding units. There are two applicable worksheets for each product category. Expenses were categorized as being either acquisition or non-acquisition. Non-acquisition expenses, except Renewal Commissions, were not requested by distribution channel.

Contributors were also asked to separately identify any non-recurring expenses of significant size (in excess of 2.0% of total expenses) with their data submission. These non-recurring expenses totaled about 1.0% of total expenses for life insurance and 1.3% of total expenses for annuities. The tables in the results section include all non-recurring expenses. No further evaluation was conducted of these expenses.

Contributors were asked to provide expense study data for the following product categories:

- Life insurance—Term, Permanent, Variable, Corporate Owned Life Insurance (COLI) and Bank Owned Life Insurance (BOLI). It was thought that these product groups had product or expense characteristics that would result in different unit expenses. For these life insurance products, contributors were further asked to provide acquisition expense detail to the best of their ability broken down by the following distribution channels: Career, Brokerage, Personal Producing General Agents (PPGA), Multi-Line, Direct Response, Other and Unallocated (that expense that was not split by channel). Contributors were also asked to provide Universal Life (UL) data detail separately. A separate analysis of this UL data is also included in this report. UL data has been provided in Table 2UL, as this product has been included in the Permanent product category.
- Annuities—Immediate, Deferred, Variable Immediate and Variable Deferred. For these annuity products, acquisition expense breakdowns were requested for the following distribution channels: Career, Brokerage, PPGA, Stockbroker, Financial Institutions, Other and Unallocated.

The data received from the contributors was aggregated and unit cost calculations were developed. As part of the aggregation process, a series of data integrity checks was performed and contributors were contacted to resolve missing or anomalous data. The contributed data was then refined over the course of several months.

In some instances, there was insufficient data to provide unit cost calculations for particular products and distribution channels. For the impacted distribution channels, the expenses and units are only included in the totals category, rather than separately shown as a specific channel.

The 23 companies (listed in Section 4) that contributed data to the 2008 study had \$4.3 B of life insurance expenses, \$16.4 B of life insurance premium, \$1.9 B of annuity expenses and \$20.7 B of annuity premium. As compared to total industry in the United States, these amounts constitute approximately 14.0% of individual life insurance premium and 10.0% of individual annuity premium.

For certain universal life insurance and variable universal life insurance products, dump-ins and excess first year premiums (premiums paid in excess of planned periodic payments, typically compensated more like single premiums) were separately identified. Data shown in this report for these products includes dump-in premium and commissions in the applicable category.

For the 2008 study, 13 of the 23 companies that contributed data for the Permanent Life category were able to provide data for their Universal Life policies, which are a subset of the Permanent Life category. The unit expenses are shown in Table 2UL. Further analysis of Universal Life expenses will be conducted in conjunction with the 2009 study.

For this study, these dump-ins were combined with single premiums for calculation purposes. The table below presents the total amount (\$000,000s) of the dump-ins and corresponding dump-in commissions reported by the contributors for the applicable life insurance product categories.

| | Product | |
|-------------------------|---|---------------------------------|
| | Individual Permanent Life | Individual Variable Life |
| Dump-ins | \$ 293.0 M | \$ 40.0 M |
| Dump-in Commissions | \$ 13.3 M (4.5% of dump-ins) | \$ 0.5 M (1.3%) |
| First Year Premiums* | \$ 947.0 M | \$ 91.0 M |
| First Year Commissions* | \$ 558.0 M (58.9% of 1 st year premiums) | \$ 39.0 M (42.9%) |

*Includes Dump-ins

Section 2: Data Issues

As part of the data cleansing process, a series of data checks was conducted. Overall, the quality of the data has consistently improved since the initiation of the study in 2001. This is, in part, as a result of repeating contributors who have become more familiar with the process and the data requirements of the study. In addition, the data checks have become more sophisticated based on prior years' experience. The data issues encountered this year are similar to prior years:

- 1. Missing Units or Expenses for a Given Set of Data**— In some instances, a contributor provided the units and not the expenses, or vice versa, for a particular product and distribution channel combination. This required one of several remedial actions, depending upon the situation. First, detailed feedback from the contributor was sought. If detailed corrections or adjustments from the contributor were not available, a pro-rata approach for allocating expenses and units was proposed. If a pro-rata solution did not prove to be reasonable, the missing units or expenses were handled on an individual basis and a decision was made regarding whether to include the data in the study results.

- 2. Not Enough Data to Present Detailed Level Results by Product/Distribution Channel**— For some products and distribution channels, an insufficient number of contributors provided data to present detailed level statistics. In these instances, only summary level statistics are shown to maintain confidentiality of contributor experience. In addition, there continues to be an insufficient number of contributors with COLI, BOLI, or Variable Immediate Annuity experience to publish results for these product categories. It is hoped that a sufficient number of contributors will provide data next year for these categories.

- 3. Wide Company Variation in Unit Costs**— Abnormally high unit costs and wide company variation were observed in several products/distribution channels. This is particularly evident for Variable products. The primary explanations for this variation included the recent introduction of this product line by a company, resulting in relatively high unit expenses or a small number of policies sold and inforce. When a valid explanation for the unit costs was obtained from the contributor, the data was retained. Otherwise, the data was eliminated from the study.

- 4. Claim/Surrender/Lapse Expenses**— Several contributors did not include the number of claims, surrenders or lapses and/or applicable expenses needed to derive the Per Termination, Per Claim, and Per Annuitized Contract unit costs. Where possible, units or expenses were imputed for these contributors based on the study averages (for those that did submit such data). For life products, an insufficient number of contributors provided surrender and lapse information for this purpose. Consequently, an explicit unit cost for surrender and lapse expense could not be developed. Surrender and lapse expenses are included in the Per

Policy Inforce calculation for life products. For annuity products, more credible surrender and lapse information was submitted which is the basis of the Per Termination calculation. However, for some products, an insufficient number of contributors provided this information to calculate meaningfully all statistics (median, 75th percentile, 25th percentile).

5. **Premium Tax**— Several companies were unable to provide Premium Tax data by the categories requested. Companies that did not provide Premium Tax information were excluded from these averages.
6. **Additivity of Unit Cost Factors**— In order to maintain the additivity of the average unit cost factors, adjustments were made to the data when necessary, e.g., when a company did not report any expenses that were related to a particular unit.
7. **High Weighted Average Per Policy Index Figures for Certain Products**— For certain products, it was observed that the weighted average for the Per Policy Index is greater than the 75th percentile. These skewed values are caused by several contributors with much higher expenses on a per policy basis than the majority of other contributors. These results may have been caused by an undercount of policies or expense misallocation by a limited number of contributors. Nevertheless, after discussion with these contributors, it was decided to include their data for purposes of the study. However, for these products, the unweighted average or median is likely to be a better measure for benchmarking purposes.
8. **Asset Trail Commissions for Annuity Products** – Several companies included asset trail commissions with their reported Renewal Premium Commissions. As a result, the Renewal Premium Commission percentage is higher than others for these companies. This raises the overall company averages for the Fixed Deferred and Variable Deferred Annuity products.

Section 3: Description of Unit Cost Formulas Used

The following formulas were used to develop the unit cost calculations shown in the tables and graphs included in Section 6.

Life Insurance Products

Acquisition

Per Policy Issued= (Underwriting – All Other + Policy and Contract Issue + 1/3 * Product Development + 1/3 * Other Acquisition) / (Total Policies and Contracts Issued)

Per 1000 Issued= (Underwriting – Inspection Reports and Medical Exams +1/3* Product Development +1/3* Other Acquisition) / (Total Volume Issued)

Percent of First Year Premium= (Sales and Marketing + 1/3 * Product Development + 1/3 * Other Acquisition) / (First Year Premium Collected - 0.9 * UL and VUL Dump-in Included in First Year Premium Collected + 0.1* Single Premium Collected - 0.1 * Paid-Up Additions Included in Single Premium Collected)

First Year Commission Percent= (First Year Commissions – UL and VUL Dump-in Included in First Year Commissions) / (First Year Premium Collected – UL and VUL Dump-in Included in First Year Premiums Collected)

Single Premium Commission Expense= (UL and VUL Dump-in Included in First Year Commissions + Single Commissions) / (UL and VUL Dump-in Included in First Year Premium Collected + Single Premium Collected – Paid-Up Additions Included in Single Premiums Collected)

Per Policy Index= (Sum of the numerators (expenses) for the Per Policy Issued, Per 1000 Issued and Percent of First Year Premium Calculations) / (Total Policies and Contracts Issued)

Per Premium (Includes Single Premium) Index (see Table 17) = (Sum of the numerators (expenses) for the Per Policy Issued, Per 1000 Issued and Percent of First Year Premium Calculations) / (First Year Premium Collected + Single Premium Collected)

Per Premium (First Year Premium Basis Only) Index (see Table 17) = (Sum of the numerators (expenses) for the Per Policy Issued, Per 1000 Issued and Percent of First Year Premium Calculations) / (First Year Premium Collected - 0.9 * UL and VUL Dump-in Included in First Year Premium Collected + 0.1* Single Premium Collected - 0.1 * Paid-Up Additions Included in Single Premium Collected)

Per 1,000 Issued Index= (Sum of the numerators (expenses) for the Per Policy Issued, Per 1000 Issued and Percent of First Year Premium Calculations) / (Total Volume Issued)

Non-Acquisition

Renewal Commission Percent= (Renewal Commissions) / (Renewal Premium Collected)

Premium Tax= (Premium Tax & Guarantee Association Assessments) / (First Year Premium Collected + Single Premium Collected + Renewal Premium Collected)

Per Claim= (Benefit Department(s) and Claim Settlement Expenses) / (Number of Claims)

Per Policy Inforce= (Policyowner Services + Surrender and Lapse Expenses + Significant Non-recurring Expenses + Total Overhead + Other non-overhead) / (0.5 * Policies and Contracts Current Year + 0.5 * Policies and Contracts Previous Year)

Annuity Products

Acquisition

Per Policy Issued= (Policy and Contract Issue + 2/3 * Product Development + 2/3 * Other Acquisition) / (Total Policies and Contracts Issued)

Per Policy Index= (Sum of the numerators (expenses) for the Per Policy Issued and Percent of First Year Premium Calculations) / (Total Policies and Contracts Issued)

Per Premium Index (see Table 17) = (Sum of the numerators (expenses) for the Per Policy Issued and Percent of First Year Premium Calculations) / (First Year Premium Collected + Single Premium Collected)

Percent of First Year Premium or Single Premium= (Sales and Marketing + 1/3 * Product Development + 1/3 * Other Acquisition) / (First Year Premium Collected + Single Premium Collected)

Commission Percent= (First Year Commissions + Single Commissions) / (First Year Premium Collected + Single Premium Collected)

Non-Acquisition

Renewal Commission Percent= (Renewal Commissions) / (Renewal Premium Collected)

Premium Tax= (Premium Tax & Guarantee Association Assessments) / (First Year Premium Collected + Single Premium Collected + Renewal Premium Collected)

Per Termination= (Surrender and Lapse Expenses) / (Number of Surrender and Lapses)

Per Annuitized Contract= (Benefit Department(s) and Claim Settlement Expenses) / (Number of Annuity Contracts on which a Periodic Payment was made)

Per Policy Inforce= (Policyowner Services + Significant Non-recurring Expenses + Total Overhead + Other non-overhead) / (0.5 * Policies and Contracts Current Year + 0.5 * Policies and Contracts Previous Year)

Section 4: List of Participating Companies

The Committee on Life Insurance Company Expenses gratefully acknowledges the participation of the following companies. Their support of this study and assistance proved invaluable.

Participating Companies

| | |
|---------------------------------|---|
| Allstate Insurance | Knights of Columbus |
| American Family Life Insurance | Lafayette Life Insurance Company |
| Bankers Life and Casualty | Liberty Life Assurance Company of Boston |
| Colonial Penn Life Insurance | Midland National Life Insurance |
| Columbus Life Insurance | North American Company of Life and Health |
| Conseco Insurance Group | State Farm Life Insurance |
| EquiTrust Life Insurance | Symetra Life Insurance |
| Foresters | Thrivent Financial for Lutherans |
| Gleaner Life Insurance Society | Western-Southern Life Assurance |
| Horace Mann Life Insurances | Western and Southern Life Insurance |
| Jackson National Life Insurance | Woodmen of the World |
| John Hancock Financial Services | |

Section 5: Explanatory Notes for the Results Tables and Graphs

Unit Cost Statistics

The following are definitions of the five statistics shown for the unit cost calculations that appear in the results tables and graphs:

1. Weighted Average—(The sum of applicable expenses of all contributors for a given product-distribution channel)/(The sum of applicable units for all contributors for a given product-distribution channel)
2. Unweighted Average—(The sum of all contributors' individual unit cost calculations for a given product-distribution channel)/(Number of contributors)
3. Median—The median unit cost of all contributors for a given product-distribution channel.
4. 25th Percentile—The 25th percentile unit cost of all contributors for a given product-distribution channel.
5. 75th Percentile—The 75th percentile unit cost of all contributors for a given product-distribution channel.

Note: The 25th Percentile and 75th Percentile are only shown if at least 6 companies provided data for that product-distribution channel. If a Percentile did not represent a particular company, the average of the two adjoining company results was used.

It is possible that the Weighted Average is either greater than the 75th Percentile or less than the 25th Percentile. This can occur if the distribution of weights represented by individual companies is significantly skewed.

Definition of Company Size

For the results tables and graphs categorized by company size, definitions for small, medium and large contributors for both life and annuity products are given below. Note that size is defined as the total premium for either *all* life products or *all* annuity products. As a result, for example, if a company had a large life insurance portfolio that included only a very small amount of variable life insurance in force, that variable life business would still be included in the large company category. The size ranges were chosen to produce roughly the same number of contributors in the small, medium and large categories. In addition, it is possible, based on the size definitions, that not all size categories are represented for a given individual product.

Life

Small: <\$100 million in premium for all life products
Medium: \$100 million–\$1 billion in premium for all life products
Large: >\$1 billion in premium for all life products

Annuity

Small: <\$150 million in premium for all annuity products
Medium: \$150 million–\$1 billion in premium for all annuity products
Large: >\$1 billion in premium for all annuity products

Number of Company Totals

In some instances, the number of company totals will appear to be inconsistent between the product-distribution and summary exhibits. This is caused by the study's protocol for only showing results for a particular product-distribution channel if there are a minimum number of companies in that category. However, the data not explicitly presented is still included in the summary totals for the product. For example, if only three contributors included information for the Term Life Brokerage category, results for Term Life Brokerage will not be explicitly presented. However, the data for Term Life Brokerage would be included in the Totals calculation for Term Life.

Comparison of 2007 and 2008 Results

The graphs comparing 2007 and 2008 results are based only on companies that appeared in both the 2007 and 2008 studies. This was done to eliminate the variation that would be caused by a change in company mix. The corresponding figures are shown in Tables 8 and 17.

Although the 2007 and 2008 comparison results are based only on companies that contributed data for both years, significant variation in unit costs between 2007 and 2008 were observed for several individual contributors. This is the primary underlying cause for the substantial changes in some aggregate units costs from 2007 to 2008 that are shown in Tables 8 and 17.

To highlight the variability that was observed, Tables 8 and 17 also include items labeled 25th Percentile Difference and 75th Percentile Difference. These items represent the 25th and 75th percentile of the distribution of the differences in unit costs for 2007 and 2008 for each contributor.

For example, to calculate the 25th Percentile Difference and 75th Percentile Difference for the Term Life Per Policy Index, the percentage change in Per Policy Index cost for 2007 to 2008 is calculated for all companies contributing in both years. The Term Life Per Policy Index differences are then ordered from lowest to highest. The 25th percentile and 75th percentile of these differences are then shown in Table 8 to give an indication of the range of the results.

Limitations of Study

As already noted on page two of this report, due to differences in expense allocation practice among contributing companies, the mix of companies that contributed, and the limited number of contributors in certain categories provided, the results should be viewed with caution.

| Immediate | \$ 918 | 1.6% |
| Variable Deferred | \$ 853 | 1.0% |

Note: See Section 3 for Index Formulas.

Committee on Life Insurance Company Expenses 2008 Individual Life and Annuity Expense Study

Purpose and Objectives

While expenses are critical to pricing, policy illustration, financial reporting and performance analysis, actuaries working in these areas have had little in the way of inter-company information in a format that is useful for measuring their company's performance against industry averages or benchmarks. The Committee on Life Insurance Company Expenses (CLICE) was formed in part to address the need to fill this void.

CLICE is working on the 2007 inter-company expenses study for individual life and annuity products which is expected to be posted on the SOA website as soon as possible.

The objective of the 2008 study is to continue this effort while expanding the level of contributions, to serve as a useful unit expense benchmark to pricing actuaries and their managements from which to assess their own unit expense performance. In addition, CLICE expects the results to be useful in enhancing the generation of the Generally Recognized Expense Table (GRET) in the U.S. used by some companies to demonstrate compliance with the NAIC model sales illustration regulation. This study is intended to be completed by U.S. companies and U.S. operations of Canadian companies.

Concurrently, CLICE has been working with the American Academy of Actuaries' Life Reserving Working Group on concepts underlying possible expense data gathering for principle based reserving. Although the efforts of the working group have not yet necessitated any revisions to the current data submission form, CLICE will continue to monitor this effort and alter the form, if needed. In this regard, because the data submitted for this study may eventually serve another purpose, CLICE is all the more appreciative of contributions to the study.

Confidentiality

All responses to this survey will be kept completely confidential. Society of Actuaries staff will process the responses—no individual company data will be published. Where comparative results are presented, no companies will be identified.

General Instructions

The study covers all Individual Life and Annuity business including Variable Life and Variable Annuities. Accident and Health and all group business are to be excluded.

The Committee believes that broad participation is critical to the success of the study. Therefore, it is important that you participate in the study even if you cannot provide all of the requested detail; in particular, if all of your expenses cannot be broken down by distribution system and line of business. However, when transmitting your contribution, please indicate to the Committee any information not provided in the detail requested.

This study asks for acquisition activity information by distribution channel and line of business and policy/contract maintenance activity information by line of business. Except where otherwise instructed, expenses should be those that are directly incurred by the function described in the line item. Overhead should be recorded in the line items provided for that purpose. **Use your best judgment in determining the appropriate method to allocate expenses among the various distribution channels and lines of business.**

When data for each distribution channel is provided, please be sure to include both applicable units and expenses so they can be properly matched. Where you are unable to provide the breakdowns by distribution channel, use the Unallocated column. **If the allocation by line of business is not available, use the Other Life or Other Annuity line of business, as appropriate.**

A separate workbook called Data Submission Form-UL has been created for Universal Life business only. If feasible, please complete this workbook with the unit and expense information applicable to Universal Life that is also included in the Permanent Life category on the workbook entitled Data Submission Form-

All Categories. The primary workbook, Data Submission Form, should be completed as in previous years with all Permanent Life information included. The Data Submission Form-UL should only include information related to Universal Life.

For Immediate Annuities, units and expenses for structured settlements should not be included. If for some reason, it is not possible to exclude the units and expenses for structured settlements, please note in the comments section how you treated them.

Please only input numerical values in the actual expense and unit tables; for explanatory notes, please use the comments sections.

If you find it necessary to deviate from the instructions or use the Unallocated column, please provide an explanation in the area provided for that purpose or call Steve Siegel at the Society of Actuaries (847-706-3578) or ssiegel@soa.org for instructions.

Completed worksheets should be e-mailed to Barbara Scott at bsocct@soa.org.

Format

An Excel workbook is being used to collect the data. The tabs at the bottom of the workbook indicate units and expense worksheets for each line of business. You need only fill out the sheets for the lines of business that are applicable to your company. You will not be able to make entries in any cells other than those where data is expected. All other cells are protected. Totals are automatically calculated, where applicable. The width of the columns in the workbook has been left adjustable to make it easier to ensure that the correct figures are inputted (this option is only available in Excel Versions 2002 and later). If you have any problems entering data, please contact Steve Siegel at the above e-address.

Company Information

Enter the name of your company and the requested information for the primary contact for this study. Place an X in the appropriate box for your Corporate Organization Type. Enter an X in the Yes box for Primarily Burial Life Insurance Company, if your company primarily sells this type of business. Enter the amount of Gross Investment Income and Investment Expenses from Lines 10 and 11, respectively, of the Exhibit of Net Investment Income of the NAIC General Account and Separate Account Annual Statement. Also enter the Average Invested Assets for the year in the boxes below Investment Expenses. Please note any characteristics unique to your company that might significantly impact comparisons with other companies and/or if your company underwent any major changes that would impact your 2008 results in the space provided.

Lines of Business

This study covers all Individual Life and Annuity business including Variable Life and Annuities. Accident and health and all group business are to be excluded. Lines of business descriptions are as follows:

- Term—Life insurance policies and riders that are classified as term insurance for purposes of completing the Exhibit of Life Insurance in the NAIC Annual Statement.
- Universal Life—Fixed premium universal life and flexible premium universal life.
- Fixed and Flexible Premium Permanent—Whole life, limited pay life, single premium whole life, interest sensitive life, fixed premium universal life and flexible premium universal life not included in the other lines of business.
- COLI—Corporate owned life insurance.
- BOLI—Bank owned life insurance.
- Variable Life Insurance—Variable whole life and variable universal life insurance.

- Individual Deferred Annuities—Fixed premium, flexible premium and single premium deferred annuities. Include equity-indexed annuities. Do not include variable annuities.
- Individual Immediate Annuities—Annuities for which the annuitant begins receiving periodic payments, usually fixed, within one year. Do not include variable annuities.
- Variable Individual Deferred Annuities—Fixed premium, flexible premium and single premium variable individual deferred annuities. Investment returns vary directly with underlying fund.
- Variable Individual Immediate Annuities—Annuities for which the annuitant begins receiving periodic payments within one year. Investment returns vary directly with underlying fund.

Distribution Channel Descriptions

| | |
|------------------------|---|
| Career | An agency-building system using full-time agents who report to managers who are company employees or general agents who are independent contractors. |
| Brokerage | A system that uses independent producers (brokers) who are contracted with multiple companies. The bulk of their income comes from overrides rather than personal production. This includes managing general agents and independent marketing organizations. |
| PPGA | A system that uses independent personal producing general agents (PPGAs) who are often contracted with multiple companies. The bulk of their income comes from personal production rather than overrides. |
| Home service | A system that uses full-time agents who sell industrial, ordinary, and property-casualty products in an assigned territory known as a debit. These agents may be responsible for home collection of renewal premiums. |
| Multi-line agency | A system that uses full-time agents licensed in property-casualty, life, health, annuities, and equity products and who primarily represent one company. |
| Direct response | Buyer-initiated purchases made in response to direct home office offerings through the mail, media advertising, the company's website as well as purchases resulting from home office or call center-based telemarketing efforts. |
| Stockbrokers | Individuals licensed by the Securities and Exchange Commission (SEC) working in a wirehouse, or an independent or regional broker dealer. |
| Financial institutions | Commercial banks, savings banks, savings and loans, credit unions and thrifts that distribute insurance products to their customers. Sales are made by the institution's dedicated sales force, agents of affiliated agencies, or contracted third-party marketers. |
| Other | Any distribution method that does not fall into one of the categories outlined above. |
| Unallocated | Use this column if you are unable to segregate your data into the categories shown above. |

Expense Units

All expense units reported are for the calendar year 2008. References are to the NAIC Annual Statement blank. Fraternal companies should use the corresponding lines from the Fraternal blank.

A. New Business—Direct (before reinsurance is deducted)

1. Policies/Contracts Issued—Number of individual policies/contracts issued on direct business. Joint policies should be counted as one policy. Numbers of riders should not be included on this line.
 2. Volume Issued (Round to 1000s)—For individual life insurance report the initial face amount/sum insured issued before reinsurance is deducted. Include volume of riders that increase the death benefit on the base policy insured(s). **Please round the Volume Issued to 1000s. For instance, 987,654,321,123 should be entered as 987,654,321.** Not applicable for annuities.
 3. First Year Premium Collected—First year premium collected included in Exhibit 1, Line 6.1. This should include premiums in excess of UL and VUL target premiums paid in the first policy year.
 - 3a. UL and VUL Dump-ins Included in A-3—Enter the amount of premium included in A-3 that exceeded the target premium (in the first policy year) and for which a lower commission rate was paid.
 4. Single Premium Collected—Single premium collected included in Exhibit 1, Line 10.1. This should include any Dump-ins for UL and VUL paid in renewal years and dividends used to purchase paid up insurance.
 - 4a. UL and VUL Dump-ins Included in A-4—Enter the amount of premium included in A-4 that exceeded the target premium and dump-ins (in renewal years) and for which a lower commission rate was paid.
 - 4b. Dividends Used for Paid-Up Additions Included in A-4—Enter the amount of single premium included on line A-4 from dividends used to purchase paid-up insurance. Exclude any amount applied to dividend deposits.
- B. Inforce—Direct (before reinsurance is deducted)—Current Year
1. Policies/Contracts—Number of individual policies/contracts inforce at the end of the year being reported in the NAIC Policy Exhibit.
 2. Volume (Round to 1000s)—For individual life insurance, the face amount/sum insured inforce on direct business as reported in the NAIC Policy Exhibit. **Please round the Volume Inforce to 1000s.** For individual annuities, leave blank.
 3. Renewal Premium Collected—Renewal premium collected included in Exhibit 1, Line 16.1.
 4. Reserves or Account Values—For business other than UL, VUL and Deferred Annuities, enter the amount of reserves underlying the policies/contracts for each category of business. For UL, VUL and Deferred Annuities, enter the account values underlying the policies/contracts for each category of business.
- C. Inforce—Direct (before reinsurance is deducted)—Previous Year (include business in its first policy year that was inforce at the end of the immediately preceding year)
1. Policies/Contracts—Same as B-1 above for the yearend immediately preceding the study.
 2. Volume (Round to 1000s)—Same as B-2 above for the yearend immediately preceding the study. **Please round the Volume Inforce to 1000s.**
 3. Renewal Premium Collected—Same as B-3 above for the yearend immediately preceding the study.
 4. Reserves or Account Values—Same as B-4 above for the yearend immediately preceding the study.
- D. Claims/Contracts

1. Number of Claims—For Life Insurance, enter the number of death and disability claims. This item is not applicable to Annuities.
2. Number of Surrenders/Lapses—For Life Insurance, enter the number of surrenders/lapses during the year. For annuities, enter the number of both surrenders/lapses and deaths.
3. Number of Annuity Contracts on which a Periodic Payment was made—For annuities, enter the number of contracts on which a periodic payment was being made during 2008. This is not applicable for Life Insurance.

Expense Type Descriptions

All expenses reported are for the calendar year 2008.

E. Commissions Paid

1. First Year Commissions and Related Expenses—Commissions and related expenses paid included in Exhibit 1, Line 27 of the NAIC Annual Statement. This includes any commissions associated with Dump-in premiums included in 1a.
 - 1a. UL and VUL Dump-in Included in E-1—Enter the amount of commission included in E-1 that was paid on premium that exceeded the target premium.
2. Single Commissions—Commissions paid included in Exhibit 1, Line 28 of the NAIC Annual Statement. This includes any commissions associated with Dump-in premiums included in 2a.
 - 2a. UL and VUL Dump-ins Included in E-2—Enter the amount of commission included in E-2 that was paid on premium that exceeded the target premium.
3. Renewal Commissions—Commissions paid included in Exhibit 1, Line 29 of the NAIC Annual Statement. Include service fees paid. Asset trailing expenses for annuities should also be included.

F. Acquisition Expenses other than commissions

1. Sales/Marketing—All expenses, other than commissions, directly paid in the acquisition of new business, including home office, field office, licensing, sales promotion, etc.
2. Underwriting—Inspection Reports and Medical Exams—All expenses paid for inspection reports, MIB's, blood tests, para-medicals, full medicals and attending physician's statements. **This does not apply to annuities.**
3. Underwriting—All Other—All other expenses paid in relation to underwriting the risk. **This does not apply to annuities.**
4. Policy/Contract Issue—All expenses paid for the preparation and issue of policies or contracts.
5. Product Development—If your company allocates product development expenses as acquisition expenses, enter the amount here. If not, enter 0. Please note in comments where product development expenses are included.
6. Other Acquisition—All other expenses paid directly relating to the acquisition of new business. Do not include any overhead expenses that are included in G.5 (Total Overhead). Please list separately and describe each significant type of expense included here. Please include direct response acquisition related expenses in a separate line.

G. Other Expenses (no distribution channel expense splits have been requested)

1. Benefits Department(s) and Claim Settlement Expenses—For life, only expenses for death, disability, and ADB claims should be included, i.e. those expenses related to Exhibit 8 claims including internal and external staff, investigation, etc.

For annuities, expenses relating to the periodic payment of annuity benefits (including both immediate and supplementary contracts) should be included. Expenses related to surrenders and lapses should be included in G.3 (Surrender and Lapse Expenses).

2. Policyowner Services—All expenses paid directly relating to the servicing of the underlying life or annuity policies/contracts.
 3. Surrender and Lapse Expenses—All expenses paid relating to surrenders and lapses. For annuities, also include expenses related to terminations due to death. If it is not possible to separate these expenses, please include them with G.2 (Policyowner Services) and indicate in the notes section of the worksheet if included in G.2.
 4. Significant Unusual Non-recurring Expenses—significant unusual expenses paid that are not expected to recur. These expenses may be related, but not limited, to development or purchase of new systems, mergers and acquisitions, demutualizations or large legal judgements. Indicate the type of expense included. Only include such an expense here if it is greater than 2% of total expenses for the line of business.
 5. Total Overhead—Expenses that are not directly related to the acquisition or maintenance of policies/contracts.
 6. Amount of Total Overhead Allocable to Acquisition—In the pricing process, some companies allocate a certain portion of the total overhead expenses as part of their acquisition costs. If applicable, please enter the amount included in G.5 (Total Overhead).
 7. Other Non-overhead—All other expenses paid. Please list and describe each such expense separately.
- H. Premium Tax and Guarantee Association Assessments—Premium taxes paid and guarantee association assessments paid (no distribution channel expense splits have been requested). If Premium Tax is 0, please note this in the comments section.
- I. Total Expenses—Should equal the sum of E through H. Note that this should not be entered.
