

Editor's Comments

This issue of ARCH is devoted to the written presentations given at the Seventeenth Actuarial Research Conference, held at the University of Waterloo, Ontario, Canada from Sept. 30 to Oct. 2, 1982.

The Conference was jointly sponsored by the Committee on Research of the Society of Actuaries and the Department of Statistics and Actuarial Science of the University of Waterloo.

The Conference was organized by Harry Panjer, Programme Chairman and Frank Reynolds, Local Arrangements Chairman.
