**CONTENTS**

|  |     |
|--|-----|
| Conference Announcement .....  | iii |
| Conference Program .....   | v   |
| List of Attendees .....  | vii |
| Bayesian Credibility — A Summary of AERF Sponsored<br>Research<br>Stuart Klugman             | 1   |
| Survival Models and Their Estimation .....   | 11  |
| Dick London  |     |
| Comments on the Ackland-Seal Concept with a Proposed<br>Exposure Formula<br>Ralph E. Edwards | 17  |
| Applications of Operations-Research Techniques .....   | 23  |
| in Insurance<br>Arnold F. Shapiro  |     |
| Promoting Practical Research .....   | 39  |
| Ralph E. Edwards   |     |
| The Future of Actuarial Research (Abstract & Outline) .....                                  | 43  |
| Mark G. Doherty  |     |
| An Application of an Interest Rate Diffusion Model .....                                     | 47  |
| to the Valuation of Mortage Rate Insurance<br>Keith P. Sharp                                 |     |
| Exploration of Actuarial Mathematics with Recognition .....                                  | 67  |
| of Nuclear Holocaust Hazard<br>Cecil J. Nesbitt  |     |
| Discussion - Ralph E. Edwards .....  | 90  |
| AIDS: Survival Analysis of Persons Testing HIV + .....                                       | 93  |
| Harry H. Panjer  |     |
