

**ACTUARIAL RESEARCH CLEARING HOUSE  
1995 VOL. 1**

ACTUARIAL RESEARCH CLEARING HOUSE  
1995.1  
PROCEEDINGS  
TWENTY-NINTH ANNUAL ACTUARIAL RESEARCH CONFERENCE  
OREGON STATE UNIVERSITY

CONTENTS

Editors' Comments . . . . .	vii
Conference Announcement . . . . .	ix
Program . . . . .	xi
List of Participants . . . . .	xv
Obituary: Hilary Seal . . . . .	xix
The Actuarial Faculty Forum: What Is It? What Should It Be? . . . . . Bryan V. Hearsey	1
Committee on Knowledge Extension Research . . . . . Curtis E. Huntington	7
Decision Making Under Conflicting Criteria for Actuarial Assumptions: An Expected Utility Model . . . . . Lisa Lipowski Posey and Arnold F. Shapiro	9
A General Framework for Financial Decisions . . . . . Oakley E. VanSlyke	25
Uncertainty in the Modelling Process . . . . . Andrew J.G. Cairns	51
Predicting the Rate of Non-Acceptable In-Patient Hospital Utilization (abstract) . . . . . Marjorie A. Rosenberg	53
Can the Insurance Market Support both Agency and Direct Writers? . . . . . Mary V. Kelly	55

Experience of Refinanced FHA Section 203 (b) Singlefamily Mortgages . . . . .	97
Thomas N. Herzog and James E. Laverty	
Bivariate Schuette Graduation of Race-Specific Mortality Rates . . . . .	131
Esther Portnoy	
Trends in Certain Causes of Death at Young Ages in Canada . . . . .	141
Robert L. Brown and Linn Abraham	
Mortality Rates by Marital Status (abstract) . . . . .	155
Charles L. Trowbridge	
Bayesian Cumulative Anti-Selection (abstract) . . . . .	157
Charles Fuhrer	
Credibility and Persistency (abstract) . . . . .	159
Virginia R. Young	
Credibility Models: An Estimating Function Approach (abstract) . . . . .	161
Harry H. Panjer and David X. Li	
Robust Credibility with the Kalman Filter . . . . .	163
Jose Garrido and Rosario Romera	
SoA's New Research Department . . . . .	173
Warren R. Luckner	
Examining Changes in Reserves Using Stochastic Interest Models . . . . .	203
Siu-Wai Lai and Edward W. Frees	
A Second Order SDE for the Force of Interest (abstract) . . . . .	233
Gary Parker	
Surplus Dependent Risk Models . . . . .	235
Wojciech Szatcschneider and Jose Garrido	
Dynamic Spanning of Contingent Claims . . . . .	239
Hal W. Pedersen	

Valuation of a Catastrophe Insurance Futures Contract Using Compound Poisson Claim Assumptions . . . .	273
Jacques F. Carriere and Kevin A. Buhr	
Hedging of Insurance Contracts (abstract) . . . . .	299
Philippe Artzner	
Actuarial Approach to Option Pricing . . . . .	301
Hans U. Gerber and Elias S. W. Shiu	
A Space Marching Finite Difference Algorithm For Valuing American Options (abstract) . . . . .	337
Lijia Guo	
The Bayesian Analysis of Generalized Poisson Models for Claim Frequency Data Utilizing Markov Chain Monte Carlo Methods . . . . .	339
David P. M. Scollnik	
Manipulating Lagrangian Distributions and Associated Compound Distributions with Maple . . . . .	357
Rohana S. Ambagaspitaya	
Another Look at the Affordability of U.S. Social Security Cash Benefits (OASDI) . . . . .	371
Howard Young	
Some Financing Options for Social Security . . . . .	381
Cecil Nesbitt, Marjorie Rosenberg, Lee Berger, Marc Levinsky, Alexa Nerdrum, Suzy O'Donnell, David Samaniego, and Amy Trendel	
Risk Classification by Fuzzy Cluster (abstract) . . . . .	419
Zengxiang Tong and Zhen Huang	
Non-parametric Estimation for Joint Survival Distribution Using Interval-Censoring Technique . . . . .	421
Yibing Wang, Lijia Guo, and Robert B. Brown	
A Stochastic Model for CCRCs . . . . .	431
Bruce L. Jones	
Minimum Quadratic Distance Estimators for the Zeta Parametric Family (abstract) . . . . .	453
Louis G. Doray
