1959 VOL. 11 NO. 31**

SUPPLEMENT

Your Committee was fortunate in having Charles M. Sternhell as chairman of the subcommittee initiating the report on the Table of Uniform Seniority for Joint Life Calculations Based upon the 1958 CSO and CET Mortality Tables, and the report on the Female Extension of the 1958 CSO and CET Mortality Tables. The technical work and much of the testing were done in his Company. This gave us direct access to the professional work which led to the adoption of the new tables themselves. Committee members George C. Campbell, Harold A. Garabedian, Ralph Keffer, Louis Levinson and Edward H. Wells gave unstintingly of their time during the summer and fall in critical analysis and in extensive mathematical testing. Due to the availability of large-scale computers, the process of testing was most exhaustive.
