

Accrediting University Actuarial Programs

**Stuart Klugman
Drake University, Des Moines, IA**

At its June meeting, the SOA Board of Directors approved, in principle, a program of accrediting university actuarial programs accompanied by education and/or research grants to a subset of accredited programs. The Board has asked that the Knowledge Management Strategic Action Team (KMSAT) develop a specific proposal to be voted on at their October meeting. At this session, the latest version of the KMSAT proposal will be presented for discussion and feedback.
