## ON THE LIGHTER SIDE

# What's the actuarial ticket in November?

*I often think it's comical  
How nature always does contrive  
That every boy and every gal,  
That's born into the world alive,  
Is either a little Liberal,  
or else a little Conservative!*

If you know the tune from Gilbert & Sullivan's "Iolanthe," you might want to sing along, perhaps adding

some new lines with more political twists. But you don't need to know any songs — or even be a U.S. citizen — to participate in our actuarial poll.

*The Actuary* wants to know: Who is your choice in this U.S. presidential election year? And for each ticket listed below, what's the probability of winning? (The Libertarian and Reform party

candidates are included, even though it was unknown at press time who will appear on the ballot in all 50 states.)

Please fill out the form and fax or mail it to us by October 20. The results will be published in the November issue. Also, watch for this ballot on the SOA Web site after October 14 (<http://www.soa.org>).

If I were voting today in the U.S. presidential election, I would vote for:

- Harry Browne / Jo Jorgensen (Libertarian)  
( \_\_\_\_\_ % probability of winning)
- Bill Clinton / Al Gore (Democratic)  
( \_\_\_\_\_ % probability of winning)
- Bob Dole / Jack Kemp (Republican)  
( \_\_\_\_\_ % probability of winning)
- Ross Perot / Pat Choate (Reform)  
( \_\_\_\_\_ % probability of winning)
