

Help Shape the Future of Actuaries

Sponsor the 2022 SOA Student Research Case Study Challenge

Get in front of students in a new and innovative way by sponsoring the SOA Student Research Case Study Challenge.

The Society of Actuaries (SOA) Research Division is holding their annual Student Research Case Study Challenge, which provides an opportunity for teams of students to apply their actuarial skills to a real-world problem. The challenge is just one part of SOA's larger focus on advancing education and research for the actuarial profession.

ABOUT THE CHALLENGE

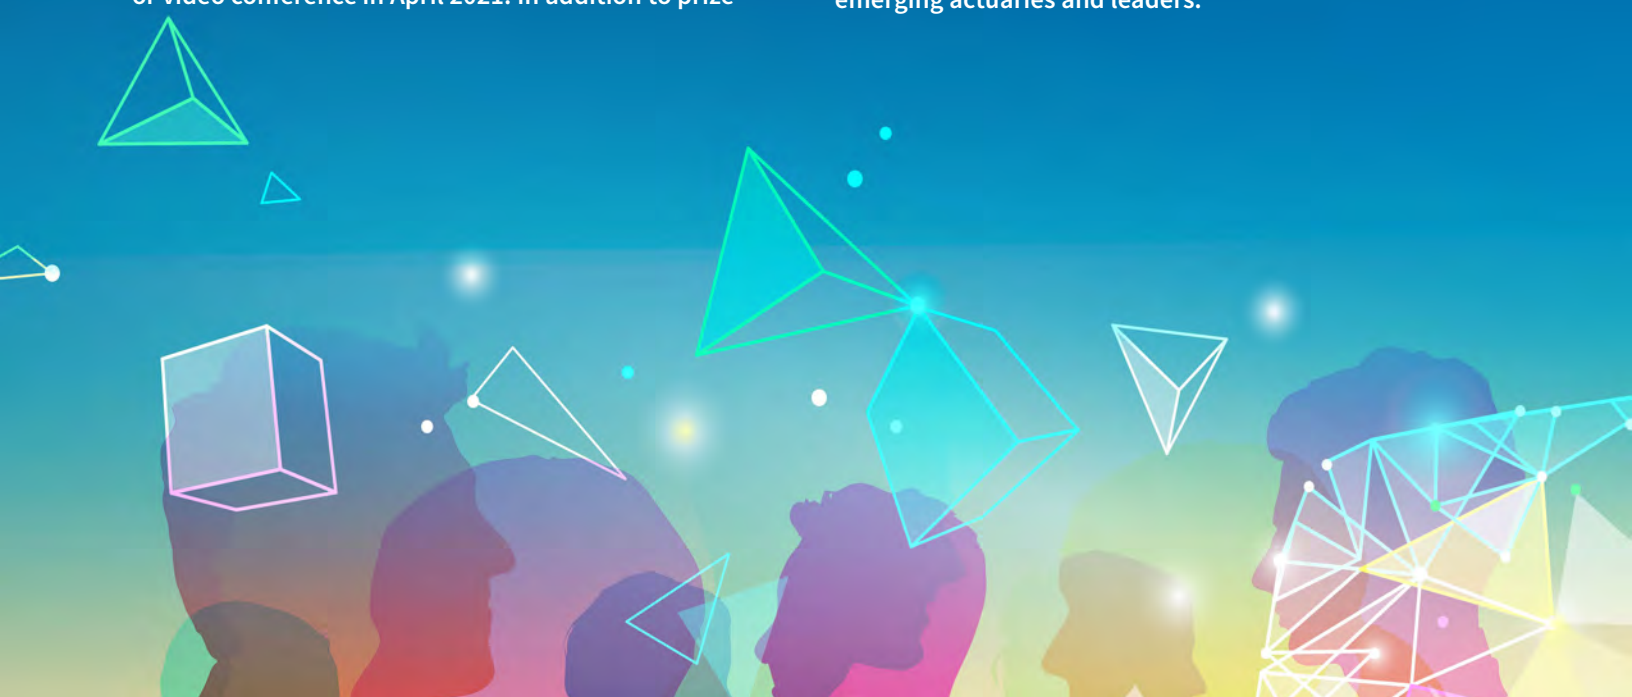

This nine-week international challenge sees teams of up to five students from the same college or university research a case study situation, conduct actuarial analysis, formulate solutions and present recommendations. The work requires a team approach to identify issues and organize priorities – critical skills as these budding professionals move toward their careers.

Submissions will be graded by a team of judges, and the top teams will present to the judging panel via audio and/or video conference in April 2021. In addition to prize

money and university grants for the top three teams, all teams meeting a minimum standard will be recognized on the SOA website and in official SOA publications, and team members will be awarded a certificate of participation.

SPONSOR THE CASE STUDY CHALLENGE

Become an integral part of this unique event by serving as a corporate sponsor. Both sponsorship levels offer direct access to the challenge participants and furthers your corporation's name recognition with this group of emerging actuaries and leaders.
