

EDUCATION COMMITTEE OF THE SOCIETY OF ACTUARIES (SOA)

INTRODUCTORY STUDY NOTE

EXAM SESSION: FEBRUARY 2017

EXAM: INTRODUCTION TO GENERAL INSURANCE

DATE and TIME: February 7–9; Time scheduled with Prometric Test Center

1. The examination will consist of 1.5 hours of 60 multiple choice questions.
2. Since the CBT exam will be offered over a period of a few days, each candidate will receive a test form composed of questions selected from a pool of questions. Statistical scaling methods are used to ensure within reasonable and practical limits that, during the same testing period of a few days, all forms of the test are comparable in content and passing criteria. The methodology that has been adopted is used by many credentialing programs that give multiple forms of an exam.
3. The following link shows a recommended FSA module/exam sequence for each track:
<http://www.soa.org/Education/Exam-Reg/edu-new-fsa-recommended.aspx>

This order is NOT mandated. Each candidate will determine the appropriate sequence based on factors including readiness to sit for an exam, exam administration schedules, or study time available. However, the Education committees believe that these recommendations provide the most effective guide for candidate success. An examination/module may assume familiarity with material that is covered in any requirement that is recommended to come before that examination or module.
4. The syllabus material includes the textbooks listed in the Appendix. The Appendix also may contain additional important information regarding this exam. A complete listing of the Syllabus and Learning Objectives is located in this exam's home page on the SOA Web site.
5. Several book distributors carry some or all of the textbooks for the Society of Actuaries exams. A list appears on the SOA Web site at: <http://www.soa.org/education/exam-reg/resources/edu-txt-manuals.aspx>.
6. Any changes in the syllabus for this exam will be published under "Updates" in this exam's home page on the SOA Web site.
7. The February 2014 examination is available at <http://www.soa.org/education/exam-reg/syllabus-study-materials/edu-multiple-choice-exam.aspx>. Subsequent exams will not be published.
8. The examination questions for this exam will be based on the required readings for this exam. If a conflict exists (in definitions, terminology, etc.) between the readings for this exam and the readings for other exams, the questions should be answered on the basis of the readings for this exam.
9. Candidates may ONLY use these battery or solar-powered Texas Instruments models: BA-35, BA II Plus*, BAII Plus Professional*, TI-30Xa, TI-30X II* (IIS solar or IIB battery), and TI-30X

MultiView* (XS solar or XB battery). Candidates may use more than one of the approved calculators during the examination.
