

MINIMAL POLICYHOLDER BEHAVIOR FORM

To submit policyholder behavior in addition to the mortality study, this format assumes:

1. All Minimal Mortality Data Contribution format fields are submitted.
2. Providing data for all fields is NOT required for submitting policyholder behavior data.
 - Each company will supply data for fields easily available in their systems/databases.
 - The Minimal Policy Behavior format provides a good starting point for what data will be needed for their principles-based reserves and experience studies.
3. Contributing companies will be sent a questionnaire on policyholder behavior items that are not typically kept on an individual policy record level but vary by plan/policy form.
